the words "Back Mountain."

Somehow we think we'll continue to say "Back Mountain" when we think of this country in preference to Dallarea, Mountain Parkway, Dallwood Heights, Suburban Hills, King-Dal-Lake-Mont or any of the other names that dress it up like a whore at a picnic. We learned that from a dad who earned and lost some money in these hills, but who was born with a love of natural beauty that compounded with every sunrise; whose greatest joy was the chance to catch the last brilliant rays of a sunset over these back mountains. He never lost that.

As for us, we're a Back Mountaineer and will be 'til we die. When that time comes we'll take our chances with eternity in a little cemetery like that at Lehman where underneath the guarding pines, those who come to remember us, can look out at the distant hills and the fading sunset as we did on Memorial Day. And when that time comes, we don't want any new-fangled "mortician" from his "slumber room" telephoning a country editor not to use "Back Mountain" in our obituary. For if he does, our spirit will rise from its pine box and make an old-fashioned undertaker out of him.

member and always has a part in Community Welfare drives. "Mike" has one all-compelling hobby—reading. He doesn't give a hoot for fiction but obtains his greatest enjoyment out of history and non-fiction. One of his favorite forms of recreation is browsing among the book counters at the Boston Store or digging through dusty volumes in a bookseller's collection to build up his own library at home. That library is probably one of the reasons why he isn't concerned about wrong numbers most evenings. The other is the companionship of his own family.

Mike's father and mother have been residents of Alderson for many years, rearing their family of five boys and one girl near the shores of Harvey's Lake. The elder Kuchtas came to this country from the Sudan area of Austria long before that beautiful region knew the turmoil of today. They were married in New York City and after some years in New York moved to Harvey's Lake where John Kuchta, the father, was employed by Albert Lewis Lumber Company.

If there is one thing "Mike" likes as much as his books it is travel. For a number of years he has made it a point to attend the races at Saratoga and to take frequent motor jaunts to Washington, New York, and points of historic interest throughout the east. He has never been to Niagara Falls—and if he ever gets the right number, we suspect that is the first place he'll strike out for with his "Maid of the Myth."

Beside his wife, the former Jean U. Trimmer, he leaves a son, Chauncey W. Turner, a sergeant with the 109th Field Artillery at Indiantown Gap, and two daughters, Mrs. Ralph Evans of Harrisburg and Alice Turner, at home.

When Fathers get together

IT'S the way of men when they get together—to talk about their business, and then about their families, and what they're doing to make their children's futures secure.

There isn't much sentiment about the head of the family . . . but don't you think he doesn't get a kick out of "all this silly business" of Father's Day. Some little gift—some little courtesy will make dad think that he isn't just the fellow who lends the family car, pays the bills and comes home late for dinner.
