## To The Voters Of Lake Township:

As The Republican Candidate For  
**TAX COLLECTOR**

I will deeply appreciate your vote and support at the polls on November 4th., and if elected, I will do my utmost to faithfully and efficiently serve the community.

**DAVID DEATER**

## An Open Letter To My Friends, The TAXPAYERS of DALLAS TOWNSHIP

From the start of my campaign for election as Tax Collector of Dallas Township I have been forced to face the opposition of our selfish, petty, political bosses. The Layaou-Yaple crowd care nothing for ability or records of faithful, honest and efficient community service. What they want are stooges who will take their orders regardless of the ultimate effect on the community. My loss of the primary as an independent Republican by only 14 votes against their dictated votes was heartening evidence that almost half the primary voters favored efficiency over petty party tyranny. Many unfortunately were overconfident of my nomination and failed to vote. Had they been "escorted" to the polls the results might have been different. Now a fellow who has earned a good reputation by working hard to do a good job doesn't like being fired by a handful of power greedy politicians. I am proud of my record as Tax Collector and feel justified in asking the voters in the General Election to keep me in that office. Since the Democrats saw fit to withdraw their candidate and place me on their ticket the Layaou-Yaple stooges have been calling me a turncoat and party deserter. They don't mention MY UNCHANGED STATUS. I am still a registered Republican. My record of past performance remains the issue. I am still a candidate for the same office, eager to serve all the people to the best of my ability.

With the continued support of my friends in the primary, plus the backing of my Democratic friends who could not vote for me in the primary, plus the many friends who didn't vote in the primary I feel confident of victory on November 4th. I deeply appreciate the enthusiastic support of all these friends in both parties and their sincere encouragement is a real source of satisfaction.

Respectfully,  
**Herbert A. Lundy**
