You Can Give These This Christmas

—Next year you may not be able to get them for love or money!

Yes, production is being curtailed and credit terms aren't what they used to be, but think it over thoroughly before you decide not to buy them for these reasons.

This Christmas we have normal stocks of ranges, washers, refrigerators and many other appliances, so it's a wise idea to give electrical gifts this Christmas when they are available.

The electrical appliances you give this Christmas will render years of efficient and economical service during the critical times ahead, when all of us will have to get along with the appliances we now have or perhaps do without.

If you are thinking about electrical gifts, we suggest that you make your choice now.
