

A WEEK OF THE WAR

"A Week of the War" summarizes information on the important developments of the week made available by official sources through noon EWT, Monday, August 3.

Price Administrator Henderson announced that maximum gasoline prices in the rationed area of 17 Eastern States and the District of Columbia will be reduced 2½ cents a gallon beginning August 5. He also announced reduction of 0.9 cents for kerosene, 1.1 cents on distillates and light heating oils, and 15 cents a barrel on residual fuel oils. Mr. Henderson said the reductions were made possible under the recent agreement worked out by the Office of Price Administration, the Office of Petroleum Coordinator and the Reconstruction Finance Corporation, whereby the Defense Supplies Corporation will absorb the extra transportation costs for moving petroleum into the Atlantic seaboard area.

Commerce Secretary Jones reported the Defense Plant Corporation will finance a two-point program to convert existing steel dry-cargo barges into tank barges to transport oil, and to improve existing inland waterways. The Bureau of Mines estimated the national gasoline demand for July, August and September will be about 17 percent less than in the corresponding period last year, eliminating the necessity for a large winter accumulation of stocks.

Consumer Supply and Maximum Prices

President Roosevelt issued a statement that every user of fuel and heating oil on the east coast "should face realistically the fact that there can be no guarantee that he will get enough oil even to meet his minimum needs."

The OPA established a wholesale ceiling price on milk and cream, sold in bottles or paper containers, at the distributor's highest March level. The action was taken to prevent a price "squeeze" on milk retailers by some milk distributors. The Office set a ceiling price of four cents a pound for waste kitchen fats now being sold by housewives in the salvage program, and a ceiling price of five cents a pound for the sale of the same fats from meat dealers to renders.

Price Administrator Henderson established a 60-day temporary ceiling on wholesale and retail lamb prices, at the highest levels charged by each seller during the period July 27-31. The temporary ceiling on lamb prices, effective August 10, places every major meat item except poultry under Government price regulations. The OPA said Armour & Co., Swift & Co., and Wilson & Co., Inc., have agreed to submit for auditing the sales records of all their branch houses for the purpose of refunding to their customers (wholesalers and retailers) all charges made in excess of the maximum prices for beef and pork.

President Roosevelt told his press conference there are three reasons for the current meat shortage in the East and some mid-Western States: (1) It is the off season for beef. (2) People have a good deal more money with which to buy more and better cuts of meat. (3) This country has around 4,000,000 men under arms for whom meat supplies must be prepared months in advance. Mr. Roosevelt said the people will have to expect new shortages from time to time because that is part of the price of winning the war.

Farm Income

During the first half of 1942 cash income from farm marketings totaled 5,773 million dollars compared with 4,012 million dollars in the same period last year, the Agriculture Department reported. Income from crops was up 36 percent and income from livestock and livestock products was 48 percent greater. The department said a record volume of marketings is expected in the latter half of 1942. Total cash income from farm marketings during 1942, including Government payments, probably will exceed 14,500 million dollars, the report said.

Rationing

The outlook for obtaining supplies from the Caribbean has "taken a turn for the worse" because of submarine warfare and the amount of shipping diverted to war purposes, the OPA said. The Office asked sugar refiners in Louisiana and Texas not to ship to sugar markets in Indiana, Illinois and Ohio until at least September 1 because of a shortage in their home States. OPA said these restrictions will have to be continued if receipts from Cuba and Puerto Rico are below expectations.

Under rationing regulations persons owning more than one typewriter may dispose of their machines only to authorized dealers or to the Procurement Division of the Treasury, OPA said. The Office ruled all new adult bicycles are subject to rationing "even though they may have been disassembled or altered or the parts changed."

War Bond Purchases

July sales of War Bonds totaled \$900,900,000, second highest month-

In The Hawks' Nest

LOOKING OVER the latest thing in fighter planes during his recent visit to the U. S. was more than a matter of courtesy to 19-year-old King Peter of Yugoslavia. The young monarch is an aviation enthusiast and an expert pilot. Here King Peter, in the uniform of the R. A. F., inspects the removable belly-tank of a new Warhawk fighter plane at a Curtiss Wright factory. Planes of this type were used by Gen. MacArthur on Bataan and are in service in China, Russia and the Middle East.

ly amount on record and 250 million above June sales.

Transportation

The Office of Defense Transportation took over allocation of all new buses and froze all integral-type buses in the hands of manufacturers. Under the new plan, the ODT will grant permission to buy new buses only when the purchasers sign an agreement giving ODT authority to transfer the buses for use elsewhere if transportation difficulties develop. ODT Director Eastman asked Public Service Commissions of the States to make a nationwide survey of local rail and bus passenger services to eliminate duplications. War Production Chairman Nelson said the WPB is studying the proposal of shipbuilder Henry Kaiser to build 5,000 large cargo planes in converted shipyards. The Maritime Commission reported U. S. shipyards broke all records in July as 71 new merchant vessels were put into service, making a total of 299 cargo vessels and tankers produced during the first seven months of this year.

The War Front

Lt. Gen. Stilwell's China headquarters reported U. S. airmen have broken the back of an elite force of Japanese bombers and fighters assembled for the purpose of driving them out of China. The climax was reached July 30, the communiqué said, when 17 Japanese bombers and new type Zero fighters were shot down. Gen. MacArthur's Australian headquarters announced Allied planes conducted raids on

Japanese positions from Amboina Island in the Netherlands East Indies to Guadal-Canal Island in the Solomons. The Navy announced the sinking of four United Nations merchant vessels by enemy submarines.

Trial Of Nazi Saboteurs

The Supreme Court ruled that the charges preferred against the eight Nazi saboteurs allege an offense "which the President is authorized to order tried before a military commission," that the commission is lawfully constituted, and that the saboteurs are held in "lawful custody." The saboteurs were brought again before the military commission.

The Armed Forces

The President signed a bill creating the Women's Auxiliary Reserve in the Navy, which will be made up at first of 1,000 commissioned officers and about 10,000 enlisted members. He also signed a bill to permit the CAA to train airplane mechanics in its Civilian Pilot Training Centers. The Army has asked for training of 31,000 mechanics. Selective Service Headquarters instructed 55 local boards to induct during August some men classified in 1-B with certain types of physical defects.

One extra plane...

... or extra tank, or extra gun, or extra ship completed tomorrow may, in a few months, turn the tide on some distant battlefield; it may make the difference between life and death for some of our fighting men.

—PRESIDENT ROOSEVELT, February 23, 1942.

Would you be the one who failed to help buy that plane, tank, or ship—by failing to buy your share of Bonds? Could you sleep nights knowing that American boys were being killed because you and others "put off" doing your part?

Remember, they are OUR boys now—from your State, your town, perhaps your very home. They're out there risking their lives—giving their lives—so that America, your free America, can live. And just as you are counting upon them to give everything they've got, so they are counting upon you to give everything you've got—by working harder than you ever have before and by investing in Bonds to the very limit of your powers!

Can they count on you? Make your answer ring clear and true—let our boys know that every man, woman, and child in America is behind them 100%! Go to your local post office, bank, savings and loan association, or other official sales agency today. Pledge yourself to buy all the Bonds you can—regularly, every pay day until this war is won! The more Bonds you buy, the more planes will fly.
