You Can Make This Demure Dirndl For Your Daughter

Your little daughter will love the grown-up look of a dirndl and this two-piece version gives slenderizing lines to tubby little figures. You can easily make this simply constructed design at home in time for school's opening, and the pattern requires only 1 1/2 yards of cotton print and 1/4 yard white pique for size 6. When it comes to wear and tear, this practical fashion will have no equal, and if you make it of sturdy, washable cotton, you'll know it will keep its good looks after innumerable trips to the wash tub. If you would like further information about this pattern and a free leaflet on "Gathering and Shirring" which will be helpful in making a dirndl dress, send a stamped, self-addressed envelope to the Needlework Department of this paper specifying leaflet No. 2223.
