READY-PASTED HANG-IT-YOURSELF WALLPAPER MAKES DECORATING EASY, CLEAN AND INEXPENSIVE

A new, revolutionary ready-pasted wallpaper makes it possible for the homemaker to be her own decorator. Prepared with a specially formulated paste coating, the paper can be hung easily and quickly without the use of brushes and paste and without the disorder and messiness of ordinary paperhanging.

Washable, fadeproof, and styletested, this labor-saving paper is standard high grade wallpaper. By using it, a professional paper hanger will save much time and effort. But because there are only three major steps in hanging this new ready-pasted wallpaper, no special instructions or experience are necessary to paper one room or a whole house.

1. ROLL IT

A strip of paper the length of the wall is cut and rolled up with the pattern on the outside. Decorating with ready-pasted wallpaper is so simple and clean that no special work clothes are required. . . . no special tools other than ordinary household articles. The paper can be hung a strip or two at a time, leaving the room in perfect order during and between sessions.

2. WET IT

Immersing the small roll in water wets the machine-applied paste evenly. This quick short step replaces the old-time laborious task of mixing two or three pounds of paste and applying it to unwieldy strips of paper laid flat on a long table. Uniform machine application of the paste has automatically eliminated the danger of lumps, wrinkling, and discolored spots. Precision-trimmed selvages prevent uneven edges and slanting paper.

3. HANG IT

The paper is unrolled right on the wall and smoothed down with the palm of the hand. Sliding it into place is easy, since the adhesive on ready-pasted wallpaper does not dry for about 20 minutes, and the paper can be shifted about on the wall until an exact match in pattern is obtained. The patterns of this wallpaper have been scientifically designed for error-proof matching. To facilitate measuring and cutting the paper it is marked on the edge at one foot intervals.
