

**THE OUTPOST**

(Continued from Page Two)

that week. During these free nights we managed to push our way around and see a little bit of Washington. I also got out to Fort Belvoir to see Cpl. George Kuchta.

The following week we started classes. What a schedule! We are kept going from 6:15 in the morning until 10 at night. This is necessary in order to cover the work the government requires.

I am taking the Basic Engineering course. It consists of physics, algebra, chemistry, English, geography, history, military science and physical training. It is operated under the Cadet system and lasts for twelve weeks.

While reading the letters in the Outpost, I noticed that many of the boys say "hello" to some of their friends who are also getting the Post. Well, I would like to take that same opportunity to say "hello" to the fellows from our old gang; Tom, Bud, Dick, "Turk", "Max", "Deac", Pete, Jim, Benny, Eggie, "Fletch", "Tabby" and all the rest. They sure have us split up. George and I are about the only two who are close together. Bob Hanson was near here but he moved to Fort Dix while I was home on furlough.

And now last, but far from least, I wish to thank you and all who have helped to make it possible for us to enjoy the Dallas Post every week. In letters I receive from other fellows, they almost always refer to the Post, when they say, I saw in the Post where so and so is in such and such a place or he was home or got a rating again, etc. It's doing a wonderful job for the

morale of all who get it by keeping them up to date on home town affairs and the whereabouts of their old friends.

Sincerely yours,  
Joe Garrity

September 25, 1943.

Dear Editor and Friends:

Just a line to let you know how things are in the squadron as that will be my work for a while. I'm quite thrilled about being in this squadron as they have made a name for themselves up North, having had recognition from the English Navy. We have a job to do down here, patrolling the sea lanes and hope to do it well! The Officers and fellows are one grand team. One thing that surprised me was how well everything is planned and carried out.

The trip from Quonset Point, Rhode Island to here, by air, was very exciting as we had to fly high and then as we neared our station we had a good view of the coastline and also the surrounding country. As it was a non-stop flight we made good time.

The Base here is alright as far as that goes but is very new and most of the construction is still underway. The flies are exasperating and cold water makes a very poor shave and shower. Our barracks are very comfortable, the chow is good and the supervision is fine. Our liberty is limited as the town is small and most of the fellows (Marines) from Parris Island come here.

Most of our time here will be spent flying. In our spare time we will enjoy swimming, tennis, foot-

ball, baseball, volleyball, horseback riding, and other sports.

After being in Newfoundland for several months, it sure is nice to see palm trees and know that it won't be freezing and blowing all the time.

I would appreciate receiving any names of servicemen who are situated near here. Maybe we can make connections some time.

How is everything on the home front? It would be very nice to hear from anyone who has "time on their hands". If, in the past I have slipped up on your letters, I'll try hard to make it up now.

Very sincerely,  
William Rhodes, Jr.

September 26, 1943

Dear Editor:

I received the Post today and sure was glad to receive it so that I could find out just what was new in the Back Mountain. When I was home I thought that it was really dead. I had more to do when I was home last time, June 1st. I found when I was home then more to do than this time. I guess I just don't get around any more. I just couldn't wait till I got back in Savannah so I could have something to do to keep me busy and break up the monotony. One thing, down here you can always find some excitement over the weekends.

When I hit Savannah I was so covered with coal dust from the train that I looked like a coal miner just after he had come out of the mines.

I read in the paper where you told one of the boys to fill out the Free Post for Soldiers' Blank and send it in, so I thought I had better take a hint and send one in myself. I sat down and filled it out and I am sending it to you in this letter.

The weather has been rather chilly down here, especially in the later part of the evenings. During the day it is rather warm and I sure hate to see the cold weather come along.

I was expecting to hear from Karl Borkowski by this time, so I am mentioning his name and hope he reads this and takes a hint and writes to me as he promised to.

How are things coming along back home? They are just about the same as always down here.

Why I am writing this letter is the news for now, so I will close and thank you again for the Post.

Sincerely,  
Pvt. Earl H. Williams,  
1110 Bul Street,  
Savannah, Georgia.

Plenty of Fresh Air  
October 1, 1943

Dear Editor:

I thought it was about time I wrote and told you of my change of address. Our outfit has been here in these Tennessee hills for about three weeks now. It isn't so bad, but it is pretty tough at times. We are really getting plenty of fresh air and Mother Nature now. It gets pretty chilly at night. We haven't had any frost yet, but plenty of dew in the morning.

Here is Robert Wallace's address, the fellow I was telling you about when I was in to see you when I was home.

Have you heard from Ted Parish since he was in New York? How are the football teams in the valley this year?

So long,  
Pfc. Bud Mitchell,  
c/o Postmaster,  
Nashville, Tenn.

• Thanks for Sgt. Wallace's address. He's now on our list, A.P.O.

528, c/o Postmaster, N. Y. City. Probably you saw Ted's picture in the Post a few weeks ago. He's in North Africa. Our old friend Stegmaier Brewing Co. thought you fellows ought to see all the football scores, so they are sending them out to you each week in a paid ad in the Post. Darn nice of them, I think. I wish some of you fellows would drop them a note and tell them that you appreciate it, too.

—Editor.

September 25, 1943

Dear Howard:

You may not know who I am. Well, I will tell you. I am the boy that used to bring feed from the Trucksville Feed Mill up to your place.

Why I am writing this letter is that I would like to get a Dallas Post. Some of the other fellows up here get them and they said you had a Free Posts for Soldiers' slip. So I got one and filled it out and am sending it to you. I would like very much to receive a Dallas Post and find out how the Back Mountain football teams are making out.

Well, there isn't very much to say now, except that I like it quite a bit up here, but I would rather be home.

Sincerely yours,  
Pvt. Benjamin Johnson,  
Camp Edwards, Mass.

I am better known in Trucksville as Victory or Vic.

The Nicest Place To Live  
October 4, 1943

Dear Sir:

Just a few lines to let you know I am O. K. and hope this letter finds you the same, and also to thank you for the Post. I really enjoyed every issue of it. I still read them every chance I get.

I am sorry I haven't written sooner, but I have been kept pretty damn busy with school. I finish school this week. I will be graduated this Friday and will be sent to another base or ship Saturday. I may get a leave or delayed orders. I hope so. I sure would like to see the good old mountains again. I think, and know, it is the nicest place a fellow could live. I really couldn't tell anyone just how nice it is. I would have to show them.

The real object of this letter was to tell you to stop sending the Post until you hear from me again.

I'll close now in order to get ready for chow. That is one thing I don't miss here. Thanks again.

Sincerely,  
Ted Schwartz, S 2/C  
U. S. N. T. S.  
Newport, R. I.

• The hillsides have been beautiful, Ted, and what an autumn moon we had last week. Hope we have your new address by the time this letter is published.—Editor.

September 30, 1943.

Mr. Risley:

After receiving the Post for more than three months, I just woke up to the fact I have not written you. I'll take that time now. I really enjoy getting the Post. You don't know what news from home can do for a fellow. I also am enclosing "Free Post for Sailors" application and hope that it is right.

I am learning how to take Diesel engines apart and put them together. I go to school for six hours and then after chow I have to study for an hour and a half, so I really don't have much time to myself.

Well, I guess I have said enough, so I'll close.

As ever,  
Thomas E. Reese, F. 3/C

**THIS YEAR Don't Flush Your Birds!...**

**Ready Mixed**

**REVITALIZER**

**BETTER THAN A FLUSH**  
NOURISHES WHILE IT CONDITIONS

REVITALIZER is the modern successor to flushing mash. It aids in gently cleansing the digestive tract without any weakening purge. It assists in controlling parasites, and also tends to eliminate excess mucus in the intestines, helping to restore a normal condition. In addition, REVITALIZER helps fortify the birds with a surplus of Vitamins and Minerals.

**TWO NEW HELPS FOR POULTRYMEN**

**TRUCKSVILLE MILL**  
Stanley L. Moore, Prop.  
Trucksville, Penna.

**CONSIDER THESE PROFIT FACTORS**

A Ready-Mixed Conditioner. No fussing; no bother. Even distribution throughout.

It helps offset possible feed deficiencies.

It tends to stimulate jaded appetites, encouraging greater consumption of feed. The more your birds eat, the quicker and larger the returns.

Lessens shock of changing from one brand of feed to another, should this become necessary.

Helps any feeding program.

Inexpensive. Fed one to three days per month as directed. REVITALIZER costs only a few additional cents per bird per year!
