New Hampshire LAYERS 35_c Per Pound **EVERY ONE GUARANTEED TO LAY OR BUST**

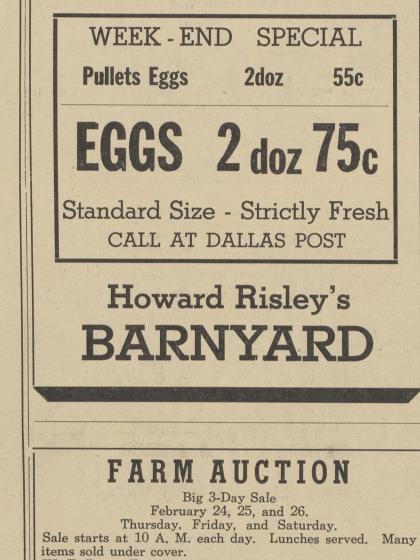

No use kidding myself. I can't take care of a big flock of chickens during these war days and run a newspaper. too.

If I could, I wouldn't be selling these swell young layers for 35c a pound. This is the first time I've ever sold them below 40c.

These chickens lay so fast I can't gather the eggs. That's no kidding. But darned if Myra and I know what to do with more than 100 eggs a day.

I only want to get rid of part of this flock, but you can have your pick of these birds as long as you want them for layers, but please don't ask me to sell them for eating. They are layers.

Don't worry about feed. You can get all you want if you've got time to have a little fun with a few layers in your back yard.
