Learn something about your War Bonds from this fellow!

THE BEST THING a bulldog does is HANG ON! Once he gets hold of something, it's mighty hard to make him let go!

And that's the lesson about War Bonds you can learn from him. Once you get hold of a War Bond, HANG ON TO IT for the full ten years of its life.

There are at least two very good reasons why you should do this. One is a patriotic reason... the other a personal reason.

You buy War Bonds because you know Uncle Sam needs money to fight this war. And you want to put some of your money into the fight. But... if you don't hang on to those War Bonds, your money isn't going to stay in the battle.

Another reason you Buy War Bonds is because you want to set aside some money for your family's future and yours. No

one knows just what's going to happen after the War. But the man with a fistful of War Bonds *knows* he'll have a roof over his head and 3 square meals a day no matter *what* happens!

War Bonds pay you back \$4 for every \$3 in 10 years. But, if you don't hang on to your Bonds for the full ten years, you don't get the full face value, and... you won't have that money coming in later on when you may need it a lot worse than you need it today.

So buy War Bonds... more and more War Bonds. And then *keep* them. You will find that War Bonds are very good things to have... and to hold!

WAR BONDS to Have and to Hold

MY HEART IS OVER THERE

That's why my HANDS are busy here!

MILLIONS of American women are applying their hands over here, answering Uncle Sam's call to help with our national food crisis. With 20 million Victory Gardens and five billion jars of home-canned foods, they conserved our resources of fighting foods in 1943.

In 1944 you are being asked to raise and preserve 20 percent more, to assure every fighting Yank and his brother—as well as the home front—with needed nourishment.

For success, can with care, following proper instructions, and use BALL JARS. They have been the housewife's preference for more than 60 years. Leaders always!
