### First Quarterly Conference Held At Huntsville Church

### Donald Bennett Fatally Stricken

#### Has Heart Attack On Way Home From Visit

Donald Bennett, 38 year old Beaumont man who was fatally stricken with a heart attack Friday night, was buried Monday afternoon with services at the home. Mr. Bennett, defense plant worker in Binghamton, had returned to Beaumont last week due to illness. He was stricken while driving home with his son Hudson Sherman from Forty Fort where he had been visiting relatives. He died Saturday morning at Nesbitt Hospital, a half hour after admittance.

A native of Courtdale, Mr. Bennett came to Beaumont with his parents twenty-five years ago. His father died of a heart attack several years ago.

Mr. Bennett leaves his wife, the former Florence Sherman of Beaumont, and two stepchildren, Hudson and Geraldine Sherman; his stepfather and mother, Mr. and Mrs. William Marviz of Beaumont.

### Marine Returns From South Pacific

(Continued from Page One)

15-day leaves. We spent it on Australian farms where we had been invited. The people couldn't do enough for us. We never had to use ration points like the natives but after awhile we got restless and wanted to move.

The Marine Corps helped us out. We were shipped to New Guinea. The boys there hadn't been bombed for 5 months before we arrived, but after the Marines landed we all got it for 23 days in a row. I saw the baking outfit that supplied all the bread for the troops on New Guinea. If I had known he was there I could have talked to Alan Kistler who I've learned since is one of the bakers. Howard and Elwood Whitesell and Willard Shaver were with us then. Elwood and Howard are still with the First Division. I just had a nice visit with Willard down at his house before I came up to The Post. Another fellow who is out there is Elwood Davis from Harvey's Lake. I didn't see him but I thought I might. He's in Communications Personnel. That's one of the toughest jobs in the Marines. Those fellows sometimes carry a 60-pound roll of wire through the jungles ahead of the front lines stringing wires so the infantry can have communication systems when they move ahead.

I never saw a snake all of the time I was in the jungles, and I don't believe I ever met a man who saw one. Maybe they were there but if they were the shell fire must have scared them away. Actually New Guinea was a beautiful place. Port Morsby couldn't be beat.

Cape Gloucester, though, wasn't so nice. We landed in the swamps but we fooled the Japs. We weren't bombed or shelled because the Japs had their guns turned the other way and we landed where they didn't expect us but the hand to hand fighting was pretty rugged. It was unlike Guadalcanal because we didn't want for anything.

After that action we went on to the Russell Islands. Time magazine calls them the Shangri-La of the Marine Corps. It was a really pleasant place. I want to hand it to the Ford and Chevrolet companies and the American Legion. They furnished us with all the cigarettes we could use.

What was the worst sight I saw on the whole adventure? Well, I've seen men killed and I've seen some hard fighting but I think the worst sight was the leper colony on New Caledonia. As our ship passed by we could see the lepers, condemned to the island for life, waving to us from the beaches. What was the best sight? Oh, that was the golden gate as we pulled into San Francisco, but that had some drawbacks for it meant the loss of our 20% overseas pay.

First Quarterly Conference of the Huntsville Methodist Church was held in the form of a covered dish supper on Friday night in the church dining room. District Superintendent Dr. J. Rolland Crompton presided and gave a talk on the Convention at Kansas City. Officers of all church organizations reported.

## Three Big "Reasons Why"!

The more you see of the No. 33 Mower the better you'll like it. The longer you use it, the more you'll appreciate its quality construction at every point. For instance, the No. 33 is the only mower in which the bevel gear and pinion are matched to a perfect fit by a special "lapping in" process. Get one now—for years to come it'll deliver satisfying performance at lowest cost.

**GOOD WORK**  
The precision-lined cutter bar guarantees sure, clean-cutting. Knife action starts with the horses. A six-point clutch transmits power instantly to the cutter bar.

**LIGHT DRAFT**  
Automotive-type transmission; only two sets of gears and those running in a bath of oil; reduced neck weight;—all contribute to light draft in the 33.

**LOW COST**  
Despite quality construction throughout, the No. 33 is no higher-priced than ordinary mowers—be sure to see it today.
