P. S. Please excuse this letter and I'll do a better job next time. It is now 3:50 a. m. and I am a little sleepy.

I used to enjoy going out to Point Judith Light in Rhode Island. I wonder if Point Lookout Light was located some distance from shore, but I gather from the name that it is on shore. To a landlubber like myself there is something thrilling about a lighthouse and the screeching intermittent fog horn during heavy weather, but how you fellows keep your wits with all that racket is beyond me.—Editor.
