New WAR PRODUCT STOPS RUST...

on Farm Machinery

We now offer farmers in this territory a new Sinclair product, developed to prevent rusting of Army equipment. It's Sinclair RUST-O-LENE B.

Applied by painting, or spraying in diluted form, RUST-O-LENE B covers metal with a tough film that resists cracking, peeling, slipping or being washed away, yet is easily removed with kerosene or gasoline. One application keeps metal parts from rusting for many months, even when they're outside. And when put on surfaces already rusted, RUST-O-LENE B prevents further rusting for a long period. You can apply it to wet surfaces, too. Available in 100-lb. drums and 25-lb. pails.
