Free Long Distance Phone Calls Home

FROM many of the 650 servicemen's hospitals has come a flood of requests and suggestions to the U.S. Victory Waste Paper Campaign for help under the Double-V Program.

Representatives of these hospitals have listed scores of little "extra comforts" which they know will add immeasurably to the morale and well-being of the boys who are trying to win their way back to health. Veterans of Normandie and Saipan ... of the Coral Sea and the Battle of the Bulge. It's such a tiresome road . . . this long trail back. But you may help to shorten it!

WHY NOT "ADOPT" A SERVICEMEN'S HOSPITAL?

How? By choosing one hospital to receive the "extras" your organization can supply. Remember there are 650 hospitals coast-to-coast. There's a hospital near you . . . or you may wish to choose one at a distance. It will thrill the boys to know that you've decided to channel part of your waste paper money to them. And helping them will thrill you, too!

So put it up to your local waste paper collection groups. They may want to start with a small percentage of their waste paper income . . . enough to make a contribution. Or it may be possible to care for a whole hospital with available waste paper money.

FIT IT INTO YOUR LOCAL PLAN

You will not have to disturb any local arrangements now in effect. The Double-V Program does not displace any local setup regarding either collection of waste paper or expenditure of money.

Remember, the wounded are coming back at the rate of over 1,200 a day. They need sympathetic care . . . to help them forget what they've been through. So get under way with the Double-V Program. The hospital Chaplains or your local Red Cross Camp and Hospital Committee will gladly provide you with information as to extra comforts needed and where they should be sent.
