Open Evenings Till 8:00

Which man are YOU...in 1955?

You and the man you work next to, are in about the same spot—today.

Tomorrow, your positions may be widely different.

In 10 years, one of you may be a decided success. The other—frankly—a failure.

No one wants to be a failure. Most failures hope for great success to come—even as you do now.

But failures, somehow, lack just a bit of

the resolution, the self-discipline, that successes are apt to have.

Take War Bonds, for instance... Victory Bonds, now.

The way of success is to stick to your resolutions—to buy more and more Bonds, and keep them! Knowing they'll form a nest egg to help you feel secure... to give the confidence that contributes to success!

More: those Bonds can mean a home of your own. An education for your children.

Your own business when opportunity knocks!

And the extra money that holding them to maturity will mean: four dollars for every three you invest in "E" Bonds.

Those Bonds are your future.

But the way of the failure is to forget those things. To sluff off on bond buying—to be tempted to cash unnecessarily the bonds he already holds...

Keep those bonds! Buy more! And more! Think of your future—hang on to your bonds!

VICTORY BONDS...TO HAVE AND TO HOLD!

### Beware Coughs from common colds That Hang On

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.

Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)
