## Seventeen Boys Choose The Navy

### Kozemchak Is Proud Of Local Sailors

Seventeen Back Mountain young men have enlisted in the Navy since the beginning of the year according to figures released this week by Chief Petty Officer Andrew Kozemchak in charge of the Wilkes-Barre Recruiting office.

Kozemchak says the Navy has now revised its enlistment policy and except in a few instances is taking no more two-year enlistments.

The exceptions are: 1. former Navy men with one year of previous navy service; 2. young men who pass the Eddy Radar test; and 3. seventeen-year olds who will be discharged a day before they are twenty-one. All other persons must enlist for a term of four years.

Kozemchak says there has been a stiffening of Navy physical requirements and thinks that enlistments may be increased to six years before the first of the year. Until October 1 all who enlist will be eligible to the benefits of the G.I. Bill of Rights.

Those under twenty-one who wish to enlist must have their parents' consent and must be accompanied to the recruiting station by their father if he is living. Birth certificates or baptismal certificates are the only papers necessary.

There were 132 enlistments from the Luzerne County area during June. The seventeen who have enlisted from the Back Mountain area since January 1 are:

Paul P. Helrick, Trucksville; William Maceiko, Dallas; Paul C. Shakalun, Shavertown; George L. Owen, Trucksville; Charles C. Cooke, Dallas; Leland Knecht, Dallas; John R. Cook, Dallas; Frank C. Gelsleichter, Dallas; Howard W. Garbutt, Dallas; Victor E. McCarty, Dallas; Bernard Siperko, Dallas; William H. Durbin, Shavertown; Russel K. Beck, Shavertown; Robert S. Bachman, Shavertown; Harry E. McCarty, Dallas; David H. Shaver, Dallas; Dean S. Dodson Shavertown.

### STATE POLICE SAY

When you take your car out for an afternoon joy ride or an evening spin—use the side roads and avoid heavily traveled main arteries of traffic. Side roads often are more scenic—and they permit you to travel at a leisurely pace without interrupting the normal flow of traffic.

### Check On Plantings

James Hutchison, county agent, and A. O. Rasmussen, Extension Ornamental Horticulturist of Pennsylvania State College made a tour of inspection this week to check up on previous ornamental plantings made at Dallas Township High School, East Dallas, Orange and Mt. Why Buyers Are Buying BREYERS

In 1866—just 80 years ago—an ambitious young man in Philadelphia—William A. Breyer—had an idea. It was to produce good ice cream for sale. Not ordinary ice cream—but ice cream made of real rich cream, real cane sugar, real fruits, nuts, berries, and other natural flavorings.

The success of his ice cream proved one all-important thing to Mr. Breyer. It was that people appreciated and preferred a quality ice cream. So he determined that his ice cream should always be made of the finest ingredients. No cream substitutes. No powders nor fillers. No artificial flavorings of any kind. This ideal of quality later became the famous "Breyers Pledge of Purity."

When you buy ice cream from an authorized Breyer dealer you KNOW your children are getting SAFE Ice Cream . . . protected by the famous Breyer "Pledge of Purity"

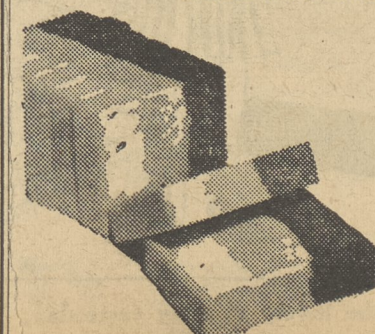

From a few hundred gallons of ice cream in 1866 the Breyers Company now manufactures millions of gallons annually.

Let's look at some of Breyers raw materials requirements for a single year.

- 30,000,000 gallons of milk and cream
- 12,600,000 pounds of sugar
- 1,000,000 pounds of eggs (800,000 dozen)
- 3,500,000 pounds of luscious strawberries
- 2,000,000 pounds of ripe ruddy peaches
- 1,405,000 pounds of chocolate
- 150,000 pounds of fresh butter
- 500,000 pounds of pecans
- 15,000 pounds of coffee
- 30,000 pounds vanilla beans
- 2,225,000 pounds of bananas
- 800,000 pounds of pineapples
- 700,000 pounds of cherries
- 600,000 pounds raspberries
- 600,000 pounds hazel nuts
