

Employment Picture Brighter Except In Ten-County Area

An optimistic picture of employment conditions in Pennsylvania has been reported by the State office of the U. S. Employment Service...

However it was noted that those applying for jobs in any degree of concentration are centered in the ten-county area of Lackawanna, Luzerne, Columbia, Schuylkill, Mercer, Northumberland, Washington, Blair, Lawrence and Cambria where the unemployment rate is almost double that found elsewhere in the State.

It is noteworthy that USES asserted that the discharge rate of veterans is fast becoming a less important factor, whereas only a few months ago, the problem created by unemployed veterans was considered serious.

This trend has been reflected in both unemployment compensation benefits paid to jobless Pennsylvanians and in payments to unemployed servicemen under terms of the Servicemen's Readjustment Act.

during the past few weeks.

For example, payments to returned veterans under the SRA for the week ending August 23, State Treasurer Ramsey S. Black has reported, decreased from the previous week to \$3,758,146, paid with 188,088 checks. This is a decrease from the previous week of \$34,649 and 1,756 checks.
