THE SPREADER WITH A 36 INCH LOADING HEIGHT

"I like my Massey-Harris No. 8. It makes short work of my spreadings and puts the manure where it does the most good." List everything you want in a spreader then compare it to the construction of the Massey-Harris No. 8. Most likely you'll find that it scores 100%. It's easy on the horses or tractor; it has wide, heavy-ribbed tires, powerful effective drive, two beaters, wide-spread distributor. That 36" height means easier loading, too. It takes the backache out of your toughest farm chore.
