John Garbutt Has New Job in Texas Panhandle

Johnny Garbutt is on the move again. He is now working for the State of Texas. He married Jeanne Thevethan while home on his Christmas vacation from Chanutte Field where he was teaching jet propulsion engines in the Army Air Technical School. He and his wife returned to Chanutte long enough for him to resign, and then they started a honeymoon tour to the southwest, ending in Amarillo, Texas.

He entered Amarillo College for the spring term, as a student of Education and Psychology, then one day he received an offer from the Veterans State Approval Agency for a position as Inspector.

He accepted and is now a traveling man. His first assignment is the Texas Panhandle from Oklahoma to Old Mexico, a territory larger than Pennsylvania. He doesn't know how long he will be able to call Amarillo home, but his guess is not for long.

His new duties include investigating firms and businesses for on-the-job training of veterans, and to assist the veteran to secure the best training possible in any line of work.

Johnny sends a special HELLO to Mrs. LaVerne Race and to all his friends 'round town.

Sickler Reunion

Descendents of the late Earl and Elizabeth Sickler will hold their reunion Saturday, July 12 at the home of Mrs. E. R. Parrish at Idetown. Friends are welcome.

TIME TO KILL?

Not if you have had your watch repaired and adjusted at Henry's.

Use of the electronic "watch-master" assures you of a correctly-running watch. No more being too early or missing an appointment.

THE LOW DOWN FROM HICKORY GROVE

I just been reading about Canada, and you know, that old Maple Leaf land, as they like to call it, is getting up and dusting. Nice folks they are too, these Canadians. A tall glass of soda, with some Scotch—it fits them exactly—they don't guzzle—they sip. But also they know their onions. The new tall buildings going up there, kinda show us up, here in our U.S.A.

In Toronto a 25-story bank building is going up, and diagonal across the street is a 16-story one—and in Montreal the new 22-story-1200 room Laurentian Hotel is headin' skyward. And the moral to this story, it can be pasted in some hats. Whose, says Henry. Well, I says, for one example, take our U.S.A. plasterers—they choose to work mostly on Saturdays and Sundays—overtime, you know. But if it is just this year in which the plasterers are interested, and they figure they can retire at the end of same, I reckon they maybe are on the right track, by upsetting all the old arguments that what labor wants is time to relax over week-ends.

And looking deeper and beyond the plasterers, you see the Govt. Heavy Thinkers and do-gooders rushing here and there and putting a no-can-do on one thing after another. Restrictions, that is the Bureau password. That makes jobs—for bureaus. But, also, I see no 25-story cloud-scrappers going up on any corner lot here in our town—like they are in Canada.

Yours with the low down,
JO SERRA
