Needlecraft News

by Nancy Baxter

Most of us know what it is to have—food, clothing, shelter. But how many know how it feels to have not? Unfortunately, there are thousands of people in the world today who are suffering deprivation. To the men, women and little children in the war-devastated areas of Europe and Asia, the necessities that we in America take for granted are at the present unobtainable. Since they cannot look to each other for assistance—for a way out of their misery—it is up to us to come to their aid.

We are all looking forward to a bright new world, but unless each individual does his part, those in- spiring words will be nothing more than just words. The will to do for others—the will to cooperate with others—is our only recourse. Good intentions are not enough—we must back them up with concrete acts.

You can do your part by cooper- ating with the American Red Cross Relief Sewing Drive. The father of our country said, "Let us impart all the blessings we possess or ask for ourselves, to the whole family of mankind." By making clothes for the unfortunates in Europe and Asia, you will not only be clothing the bodies of men, women and chil- dren but also fostering the cause of brotherly love that is the only hope of the world.

Every kind of practical garment in every size is needed for babies, children and adults. The need for children's clothing is especially ur- gent. Warm clothing is preferred because by the time you finish your garments, send them to your local Red Cross Chapter, and they in turn ship them overseas, these people will be preparing for another long winter.

Won't you help? Be thankful that you have never known what it is like to feel an aching, endless cold. Give thanks that we in America were spared the suffering and mis- ery that is part of, and an after- math of war. And show your thanks and gratitude by helping those less fortunate than yourself. Sew and save—perhaps a life, a life very precious to someone.

The baby gown and sash shown here are two of the items suggested by the Red Cross for overseas dis- tribution. A leaflet giving pattern number and information on how to finish these articles is available to you. Also available is a four page Red Cross leaflet telling the need and suggesting suitable patterns for this drive. You may obtain both leaflets by sending a stamped, self-addressed envelope to the Needle- craft Department of this paper, asking for Leaflet No. S 12-7 and the American Red Cross leaflet.
