Express Gratitude

Mr. and Mrs. Fred Lamoreaux of Fernbrook wish to thank all who helped in any way with the recovery of their daughter, Joy, in her recent illness. She is now getting along nicely.

31. Desire to escape from your environment as a solution for the drinking problem? (Example: Deciding that all would be well if only you could get a job in Chicago instead of having to go on working in New York.)
32. Start solitary drinking?
33. Start to protect your supply? (Example: Buying a bottle on the way home so you would be sure to have a drink in the morning.)
34. Admit to yourself your drinking was beyond your control?
35. Admit to anyone else that your drinking was beyond your control?
36. Reach what you regard as your lowest point?

The survey revealed some remarkably interesting data which dispels some current ideas about alcoholics and answers some questions which have been in the minds of many students of alcoholism.

FARM TOPICS

Timely Reminders from The Pennsylvania State College School of Agriculture

Turkeys Like Pasture—Ladino clover and orchard grass grow good feed and provide a strong turf for turkey ranges. A seeding of 3 to 4 pounds of orchard grass and 1 to 2

pounds of Ladino clover per acre for quick-growing sod is recommended.

Adjust Plow Properly—When correctly hitched and adjusted, a plow will run straight and true, produce evenly matched furrows, and do a good job of coverage and tilling. Improperly adjusted plows take extra power and wear out faster.

Heifers Need Care—Yearling heifers need the right feed and the best of management. This is the

time when the barrel of the animal develops, also the time for breeding and preparation for freshening later in the year.

Bees Aid Crops—Bees are recognized as the best means of pollinating fruits and some other crops. One strong colony per acre is suggested. Be careful that they are not poisoned by sprays.

Stir Poultry Litter—Daily stirring of the brooder house litter will keep it dry and it will not have to be changed so often.
