**THINGS ARE CHANGED!
THIS TIME THE FIRE
WENT TO THE FIREMEN**
Sunday morning when Irving Gloman and his son drove up in front of College Misericordia in their Chevrolet sedan, they smelled smoke coming from the rear seat. Without a moment's hesitation they headed for Dallas and the Dr. Henry M. Laing Fire Company.

When they reached Bessecker's Gasoline station, they yelled "where's the fire company?" "Right here," somebody answered. In no time Jim Bessecker grabbed the CO2 fire extinguisher hanging in the station and extinguished the blaze.

Damage amounted to \$75 to the upholstery and rear seat of the car where some one had carelessly dropped a cigarette. "That's the first time," said Chief Bessecker, "that I ever had a fire come to me; usually I have to run after them!"

STRICTLY BUSINESS

by McFeatters

"I can't understand why our next door neighbor's electric bills are so much lower than ours!"

To Hold Lawn Supper

Ladies Aid of Huntsville Christian Church will hold a lawn supper at the church Wednesday evening, August 25 starting at 6 o'clock. If the weather is not favorable, tables will be set inside.

GOODWIN AUTO

PRESENTS
THE UNIVERSAL JEEP

WITH HYDRAULIC LIFT
IT SAVES YOU TIME—THE 4-WHEEL-DRIVE—IT'S DEPENDABLE

You get more for your money when you invest in a Universal "Jeep."

You get a truly modern tractor—engineered for steady pulling at speeds of 2 1/2 to 7 mph, with 4-wheel-drive traction, powered by the famous 60 hp "Jeep" Engine. The "Jeep" will operate pull-type implements, or you can equip it with the new hydraulic lift that raises, lowers and controls 3-point-hitch implements at the touch of a lever by the driver's seat.

fatigue—a full-back, cushioned seat, windshield, car-size lights, mudguards, easier steering.

You get more than a tractor, for the "Jeep" helps out at other jobs. With power take-off, it operates shaft and belt-driven equipment. It gives you highway speeds in 2-wheel drive, and helps with your hauling and towing. The "Jeep" will get you through deep mud or take you cross country.

Why goats prefer New, Smaller-Size Pellets

New Beacon Goat Ration is more economical for you, too

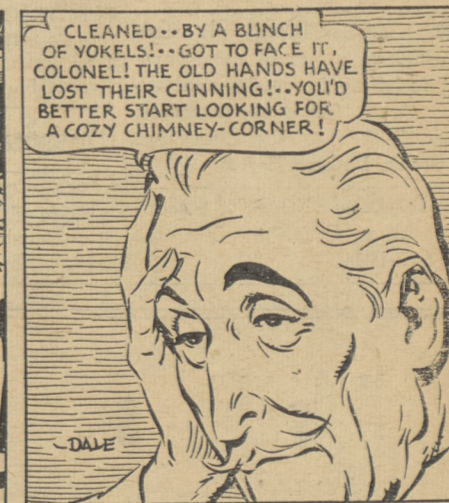

For some time, the Beacon Milling Company has believed that goats would prefer a smaller size pellet. We thought also that it would have other advantages in feeding and economy. So—we tested the small pellet on numerous goat farms . . . and found that without exception, goats preferred it.

1. The new Beacon Goat Ration with smaller size pellets does not separate nearly as much from the rest of the ration.
2. The entire ration is eaten. Even the "fussy" goat does not leave the new Beacon Pellets.
3. You can feed larger amounts of feed.
4. Beacon's new Goat Ration is more economical to use.
