Babson Says Business Will Be Off 5 Percent

(Continued from Page One)

pick any special "winners" in 1949; but will diversify broadly. Those who have many stocks will gradually build up good reserves, in cash or Governments, for the big break which will come some day. Careful buyers of stocks will insist on making full payment and avoid borrowing during 1949.

36. Safe dividend paying stocks will be in greatest demand, especially if double taxation on dividends should be eliminated.

BONDS
37. We are definitely bearish on low-coupon-rate, long-term taxable bonds as money rates will gradually increase.

38. If Congress should exempt dividends from double Federal taxation, 1949 will see a further falling off in the prices of certain tax-exempt bonds.

39. We forecast no change in the nation's monetary policy relating to credit control and interest rates during 1949.

40. Investors will give much more attention to diversification in 1949 and will try to have their bond maturities either fairly short or staggered.

REAL ESTATE

41. City real estate will continue to hold firm through 1949, due to less available rental space caused by pulling down structures to save taxes, provide parking spaces, etc. There also is a disinclination to build new city property in view of the present high costs.

42. Suburban real estate will continue in fair demand during 1949 although there will be some shading of prices.

43. Big commercial farm acreage will sell for less during 1949; but subsistence farms, located close to established communities, will hold up in price.

44. General building will decrease during 1949 although the cost of building may decline a little. The quality of workmanship will improve.

45. Both office and residential rents will be higher in 1949. Only as property owners are granted higher rentals, will there be enough houses to rent.

46. Mortgage interest rates during 1949, will continue about the same as in 1948. Any changes will be toward increases.

POLITICS
47. The Administration will encourage legitimate new enterprises and full employment, continuing its loyalty to labor and farmers.

48. Vacancies in the various commissions and government corporations organized since 1932 and which have great powers will be filled by men acquainted with legitimate business but friendly to Mr. Truman.

49. Congress will take our foreign policy out of the hands of the State Department and the Brass Hats.

50. The Administration will be fair both to labor and management or lose the Congressional elections of 1950 by bringing on depression.

RADIO NEWS

HAPPY NEW YEAR TO YOU ALL

Now is the time to have those Christmas present radio sets which "don't seem right" looked at. It will save you money.

FM

Now we have two more FM stations in the area, both are in Scranton, but bring us, along with our own stations, all of the network programs. You might say it was a swell Christmas present to the FM set owners. Just remember an FM antenna will give you a minimum of 75 percent improvement in reception.

Let us help you with your radio problems.
