SAFE and SOUND

It is **Safe**—for you... for your family... for other motorists—when you make certain your car is in running order: That your brakes will hold in case of emergency. That the windshield wiper will work in sudden summer showers. That tires will grip the road. That headlights are focused correctly for driving at night. That your steering wheel will obey your hands. **Safe**—for summer and vacation driving.

It is **SOUND**—because statistics prove that official state inspection has cut traffic accidents due to mechanical failure of cars in Pennsylvania to 3.2% while the national average for such accidents is 17.5%. So sound—that safety experts are urging all states to adopt such a measure.

Your car must carry an official state inspection sticker by July 31st—or you will be violating the law. Get your car inspected today. There will be no extension of this inspection period.
