*Often called "bottled" or "tank" gas. Gives instant heat at turn of valve, no matter where you live.

Miss Nancy Swartz Becomes Bride of Lewis W. Haughey

Miss Nancy Swartz, daughter of Dr. and Mrs. George Swartz of Battle Creek, Mich., former Dallas residents, became the bride of Lewis William Haughey, son of Dr. and Mrs. Wilfrid Haughey of Gold Lake, Mich., at a very pretty wedding in St. Phillips Catholic Church Saturday, June 18 at 11 o'clock. Father Gerald Owens read the service before an altar banked with white glads, snapdragons, ferns and palms, and flanked with lighted candelabra.

The bride was attractive in white satin gown made with fitted bodice, long tight sleeves, pointed at wrist, bertha edged with chantilly lace and seed pearls, and long flowing train. Her full-length veil of illusion which fell from a crown of lace and seed pearls was edged with lace and she carried a cascade bouquet of stephanotis.

Miss Vivian Decker of Miami Beach, Fla., cousin of the bride, was maid of honor. She wore a pink dress with lace bodice and marquisette skirt and matching picture hat. She carried a Colonial bouquet of mixed flowers.

Mrs. William Hanna, Center Hill road, and Miss Nancy Musser of Seaside, N. J. were bridesmaids. Mrs. Hanna wore white organdy over blue and Miss Musser, white

over yellow. Both wore matching picture hats, wide satin sashes and carried Colonial bouquets.

Mrs. Swartz, mother of the bride, chose white crepe dress and accessories with aqua cartwheel hat. Her shoulder bouquet was of pink orchids. Mrs. Haughey selected grey crepe trimmed with matching lace and white accessories. Her flowers were gardenias.

Little Jean Haughey, niece of the bridegroom, was flower girl. She wore pink marquisette and carried a basket of rose petals.

Best man was Philip Haughey, brother of the bridegroom. Ushers were Wilfrid Haughey and Charles Haughey, brothers of the bridegroom, George Swartz, brother of the bride, and Robert McCampbell of Logansport, Ind.

Following the ceremony, a breakfast for about a hundred fifty guests was held at Hotel Hart and the couple left for South Haven, Mich.

Mrs. Haughey is a graduate of Penn State College and has been employed by the Post Cereal Company. Mr. Haughey was graduated from the University of Michigan and is employed by Professional Management Corp., in Ann Arbor. The couple will reside at 2307 Parkwood, Pittsfield Village, Ann Arbor.

THE DRAKE is a compact house with an arrangement of rooms and closet space usually found only in plans of much greater area.

All of the rooms in The Drake have cross ventilation and open into a central hall. This plan gives additional privacy to each room. The Drake's bedrooms have a generous amount of clothes hanging space in their wardrobes. There is a coat closet at the front entry and another located at the rear entrance. There is a storage closet and a linen cabinet in the hall. In all, The Drake is equipped with six first floor closets.

Overall size of The Drake is 32 feet by 26 feet. There is a full basement. The area of The Drake is 922 square feet and the house has a volume of 20,788 cubic feet.

The Drake's expansion-type attic can be finished in the future to provide either two bedrooms as shown on the plan, or a large dormitory type room for play and sleeping.

The exterior walls and ceiling of The Drake are insulated. Construction is of frame with siding on the exterior walls. The roof is covered with asphalt shingles.

You've Dreamed About This

TOOL BAR IMPLEMENTS THAT ARE AN EASY ONE-MAN JOB TO ATTACH

With the introduction of the new Massey-Harris 2-Plow Model "22" and Depth-o-matic System... a completely safe, completely dependable way to attach cultivator gangs was designed... Trigger Latch Hook-up... a faster, easier way to attach tool bar implements.

You save more time because gangs leave the factory as a unit... easy to hook up... easy to store... Trigger Latch clamps them on easily in a few minutes.

Come in soon.

Just 3 units make up the attaching parts. A clamp bracket, clamp cap, and an eccentric lock. The clamp bracket and cap are recessed to fit the tool bar. When you press down on the eccentric lock the entire assembly is securely fastened to the tool bar... a simple, time-saving job.
