Borough Roads Good

Folks in the Borough were lucky this week. They had well ashed roads when people in surrounding townships were complaining about dangerous driving. Thanks to Ralph Eipper and his crew.

Spread Yuletide Cheer With Holiday Lighting

Have you ever thought of how much your outdoor holiday decorations express your personality?

Not only is a festive home an outward expression of your own holiday hospitality but when colorful lighting is part of the decoration, it can become a lighted greeting to all who see it.

Plan Early

Plan your lighting arrangements early for best results. If you're using lighted decorations for the first time, start with a simple theme and plan to develop it in succeeding years. Remember, imagination is an important part of outstanding Christmas decorations, so use it generously.

The four homes pictured above represent artistic and distinctive decorations that can be adapted to almost any home.

Simplicity and dignity are the keynote of the holiday decoration of the home pictured at the extreme top above.

Floodlighting

Here the interesting architectural lines of the house are accented by

floodlighting the whole house in a soft blue light. Projector floodlights (150-watt) using blue glass covers are concealed in low shrubbery on the front lawn. Commercial outdoor holders are used for the floodlights but many homemade-type holders can be fashioned from large tin cans or funnels, too. Notice how a small evergreen trimmed in a conventional manner with red, green and yellow outdoor tree lights complete the arrangement.

Another popular way to take full advantage of the architectural lines of a house is to outline roofs or gables with strings of colored outdoor bulbs and garlands of greens as illustrated in the center photograph at the right above. Festoons and strings are sold in lengths with up to 100 sockets or, you can make your own festoons with outside-

type wire and pin-type sockets.

Use Cutouts

If you prefer a more whimsical note in your decorating, try placing colorful plywood cutouts of Santa or other story-book characters on the lawn and spotlight them as shown in the insert circle at the left. Notice how the (150-watt) projector spotlight in its handy holder is mounted on the tree at the left. Almost any home can be transformed quickly into a fairyland of sparkling lights by stringing colored bulbs through shrubbery as shown in the lower right-hand picture above.

Choose regular outdoor tree lights and group them so that both color and lights are balanced for the most pleasing effect.
