A New Farm Power Leader

Here's the power leader of Oliver's new, modern tractor fleet. It's the husky 3-4 plow "88" with a 6-cylinder engine and six forward speeds to provide you with a practical working pace for every farm operation.

The "88" is an ideal unit for concentrated farming . . . for all the heavy "rush" jobs season after season. To suit your fuel situation, Oliver offers three great engines: (1) for gasoline, (2) for tractor fuels, (3) diesel . . . designed specifically for a farm tractor and available later.

Look at these new features: direct drive power take-off, Oil Miser transmission case, floating oil pump screen inlet, 20-gallon fuel tank, battery ignition and automatic spark advance, basic interchangeability of Oliver's full line of centrally mounted and rear suspended tools and a choice of interchangeable cast iron or stamped steel wheels with all other new Row Crop models.

Let us give you the details on all the valuable farm-utility features found on Oliver's new farm-engineered tractor fleet, built in Row Crop, Standard, Row Crop with Adjustable Front Axle or Single Front Wheel models.
