Better Calves

If you want your cow to gain weight during the dry period so she'll be in good flesh come calving time there's no better way to do it than with Glidden's Fitting Ration. Believe me, this Fitting Ration really does the job. It supplies those much needed proteins, vitamins and minerals. With this Glidden Fitting Ration your cow should gain about 100 lbs to offset the weight a well fed cow would lose during the normal milking period. I'll tell you all about this if you'll stop in at "the mill" any day.

Mrs. Ethel Ritts Buried on Minday

Loses Long Battle With Ill Health

Mrs. Ethel Ritts, 43, died last Thursday morning at the home of her mother, Mrs. Daisy M. Still, Shavertown, after a sudden heart attack which terminated a long period of semi-invalidism.

Funeral services were read by Rev. Robert D. Yost Monday afternoon from Mrs. Still's home, with Rev. Howard Harrison, a former pastor of Shavertown Methodist Church, assisting. Burial was in Fern Knoll Park.

Mrs. Ritts had been in poor health ever since high school days, when she was unable to finish her course at Kingston Township school. Elementary work had been taken in Kingston, where the family lived until the late Harry Still, her father, founded the Still Lumber Yard thirty years ago. Mr. Still died suddenly six months ago, March 20.

Since her father's death, Mrs. Ritts and her husband, Harry H. Ritts, have resided with her mother, though keeping up their own home next door.

Though up and down for years, sometimes improved, sometimes slipping back, Mrs. Ritts never gave up. She taught the Junior Department at Shavertown Methodist and was active in civic affairs. A great lover of nature and beauty wherever it was to be found, she gardened when health permitted, did beautiful pieces of crochet work when house-bound.

She and her husband, agent for Lehigh Valley railroad, travelled extensively on the Eastern seaboard from Canada to Florida in spite of increasing ill health. They celebrated their 22nd wedding anniversary September 18.

One month ago Mrs. Ritts spent some time at the Benjamin Franklin Clinic in Philadelphia, becoming increasingly ill upon her return, but apparently in no imminent danger of death until the last two days of her life.

Hemenway Attends Big Indiana Dairy Show

C. S. Hemenway, representing Hillside Farms, has just returned from the International Dairy Show in Indianapolis, one of the most important dairy cattle shows in the country. He made the round trip by plane.

In reporting on his trip, Mr. Hemenway said that the Holstein division brought out the cream of the crop from both the United States and Canada. This showing was of special interest to Mr. Hemenway, who in his program of breeding at Hillside is following the same bloodlines as the top winners.

There was a class of 30 Ayre-shire Aged Cows, winners in the great State Fairs of the year.

Thirteen states and Canada were represented in the ring full of State Herds of the Milking Shorthorn breed.

Indiana State Fair grounds make an ideal setting for such a show, with its coliseum seating 10,000 a dairy barn housing 3,000 animals, and adequate display space in the buildings for manufacturers to display equipment. It is almost centrally located in the United States.

The Annual Milking Shorthorn Association meeting and banquet at the Claypool Hotel was attended by 500 people from practically every section of the United States and a nice delegation from Canada, showing a widespread interest in this breed. Hemenway represented Hillside at both meeting and banquet.
