**Better Calves**

If you want your cow to gain weight during the dry period so she'll be in good flesh come calving time there's no better way to do it than with Glidden's Fitting Ration. Believe me, this Fitting Ration really does the job. It supplies those much needed proteins, vitamins and minerals. With this Glidden Fitting Ration your cow should gain about 100 lbs to offset the weight a well fed cow would lose during the normal milking period. I'll tell you all about this if you'll stop in at "the mill" any day.

**TRUCKSVILLE MILL**
