**Back Mountain Residents May Save Children From Contracting Polio**

With the discovery that Gamma Globulin, a product of whole blood, will protect children from Polio, Red Cross Blood Bank is renewing its efforts to step up blood donations. The danger season lasts through October. There is never enough Gamma Globulin to protect even a small percentage of the children endangered by epidemics.

Insurance against the tremendous cost of caring for a child or adult with polio is a fine thing. The foundation based upon the annual March of Dimes is a life-saver to parents with stricken children.

But nothing can take the place of immunity, nothing can cancel out the pain and suffering or the mental anguish.

If there were enough Gamma Globulin, the medical profession is hopeful that this most dread disease could be "gentled" to the stage where the strain might become weakened and unable to do such terrible damage. Or it might even become as rare as diphtheria, where there is no longer any excuse for a child contracting what was once the most dreaded disease of childhood.

For the sake of the children, and to help combat polio, residents of the Back Mountain are urged to give blood at Dallas Borough School September 11th. Hours are 2-8, a rearrangement of the usual schedule to make it possible for businessmen to contribute.

Nobody will be permitted to donate who is not in tip-top condition. There is never any danger that a donation will weaken the donor, because a preliminary examination determines the amount of iron in the blood. If there is any question in the mind of the attendant doctor, the donation is refused, the prospective donor thanked heartily for being willing to help, and the next candidate examined.

There is reason to believe that blood is also effective in combating yellow jaundice, a disease which has only recently been recognized as a real menace.

These members of the telephone

squad will attempt to reach everybody who has ever given blood, well in advance of the donation date: Mrs. Mary Sharkoski, Mrs. Irvin Marvel, Mrs. Edward Gilroy, Mrs. Alfred Root, and Mrs. James Robinson.

Mrs. Stefan Hellersperk, chairman for Back Mountain, reminds residents of the exceptional response to Dr. Sherman Schooley Day February 2, and hopes for an equal number this time. Donors who gave their pint in February will be in good condition to give another eight months later. Two months are supposed to elapse between donations, for the sake of both donor and recipient.

**Former Post Employee Drops Dead In Miami**

Leonard Comiskey, brother of Mrs. L. E. Beisel, Idetown, dropped dead in Miami August 18 as he was stepping off a train from Martinsburg, West Virginia, where he had been a patient in the Veterans Hospital. He was on his way to the Veterans' Hospital at Coral Gables.

Gassed and shell-shocked during the first World War, Mr. Comiskey, 58, had been admitted to one veterans' hospital after another during the past few years.

Twenty-five years ago he was foreman at the Dallas Post. Of late years he had not been able to work, effects of gas having been cumulative, undermining his health. He was single.

**Truckville Minister Preaches On Sunday**

Truckville Methodist church's new minister, Rev. Arthur B. Mayo, will deliver his first sermon at the two morning services on Sunday, 8:30 and 10:45. The family will move from Honesdale into the parsonage on Harris Hill Road on Tuesday.

**Enter Unique Exhibit For Historical Niche**

Mrs. Joseph Schooley and Mrs. Margaret Dykman, both of Truckville, collaborated on a remarkably intricate piece of work for a historic niche at West Side Flower Show, depicting the burning of the first anthracite.

Cementing together bits of stone they fashioned a fireplace and hearth with overmantel, placed against a background of grey muslin. A grate of umbrella ribs cut in short lengths held tiny pieces of coal. Flanking the fireplace was a miniature coal hod, on the mantel were two hens on glass nests, with daguerotypes frames above, and miniature flower prints on the side walls.

The Victorian carpet was Mrs. Dykman's brain-child, Queen Annes Lace pressed into smooth damp sand, the pattern of old fashioned pink flowers picked out in begonia petals.

The blazing fire was scarlet geranium blossoms, their stems bedded in damp sand and peat moss.

**In Memoriam**

In loving memory of our dear daughter, Helene, who died September 4, 1948. Mr. and Mrs. Andre Thevenon.

**Confessions**

There will be confessions at the Gate of Heaven Church and Our Lady of Victory Thursday at 7 p.m. Mass Friday at 8.

**French Students Enjoy Corn Roast**

Mr. and Mrs. William Lance, of Chase, entertained the French students who have been living in the Wyoming Valley area for the past month, at one of their famous corn-roasts in the pine grove Sunday evening. Present also were a number of the sponsors, including Annette Evans, chairman of the project.

The students have investigated mines, industries; visited Wilkes, and King's Colleges, and have been entertained in a variety of ways, but this is the first time any of them have enjoyed a truly American corn-roast.

**Dallas Borough School District AUDITORS' REPORT—1952 - 1953**

RECEIPTS

Balance on Hand July 1, 1952	\$ 86.38
Property Tax, 1952	\$27,939.21

**A Vital Message to YOUNG MEN!**

**AMERICA NEEDS ENGINEERING TECHNICIANS . . .**

Our nation's industries, government and military installations face an increasing critical shortage of technically trained personnel for vital jobs in detailing, drafting, machine design, tool design, electrical communications, radio, electronics, radar, electrical testing, electrical maintenance, electrical installation and many other engineering fields. Over 125,000 engineering associates and technicians needed annually while only 9,000 are currently available.

**THE PENNSYLVANIA STATE COLLEGE**

NOW OFFERS, FOR THE FIRST TIME IN WILKES-BARRE, COMPLETE TWO-YEAR COLLEGE TERMINAL COURSES IN ENGINEERING FIELDS . . . SPECIALIZED COURSES TO PREPARE YOU FOR TECHNICAL JOBS. YOU CAN LIVE AT HOME WHILE TRAINING AT A COST YOU CAN AFFORD.

**YOU CAN ENROLL NOW:**

These New Two Year Programs Open September 21

PROGRAMS OF STUDY AVAILABLE

**DRAFTING AND DESIGN TECHNOLOGY**

Prepares for Jobs Such as Draftsman, Cost Estimator, Junior Designer, Engineering Assistant, Production Supervisor, Inspection Technician, Specifications Writer, etc.

**ELECTRICAL TECHNOLOGY**

Prepares for Jobs Such as Electronic Technician, Test Maintenance Man, Engineering Associate, Installer, Specifications Writer, Electrical Technician, etc.

● **Entrance Requirements**

High School graduation with an aptitude for mathematics.

● **FACILITIES**

Modern up-to-date classrooms and laboratories—visual aids library.

● **REPUTATION**

Graduates of Penn State Technical Institutes are recognized and accepted by leading businesses and industries.

● **PLACEMENTS** Placement Service for Graduates. Exceptional placement record in secure high paid jobs.

**Approved For Veterans**

Don't let the lack of college training handicap you. You can earn a technical institute diploma at Penn State Technical Institute in just two years as an associate in engineering.

For Full Information and a Complete Catalog, Contact:
