IT DOESN'T ALWAYS PAY TO BE BRAVE...

Adults too often will put on a show of courage with a "cold," rather than retire and rest—and call the Doctor. Pneumonia sometimes attacks such stalwarts.

Do not try to be brave with a "cold," however simple. Follow the well-established guidance—rest, eat a well-balanced diet, and drink plenty of water and fruit juices. If symptoms persist, call your Doctor promptly, while there is still time for treatment of the current illness and prevention of possible hazardous complications. If medicines are indicated, we will be happy to render the best in Pharmaceutical service in filling your Doctor's prescriptions.
