Why Own Your Own Home?

The security of owning your own home is an experience that every family should have . . . an experience that will pay dividends in many ways through the years.

Getting your family roots down in a pleasant suburban community is the best way of life for you, and particularly for your children.

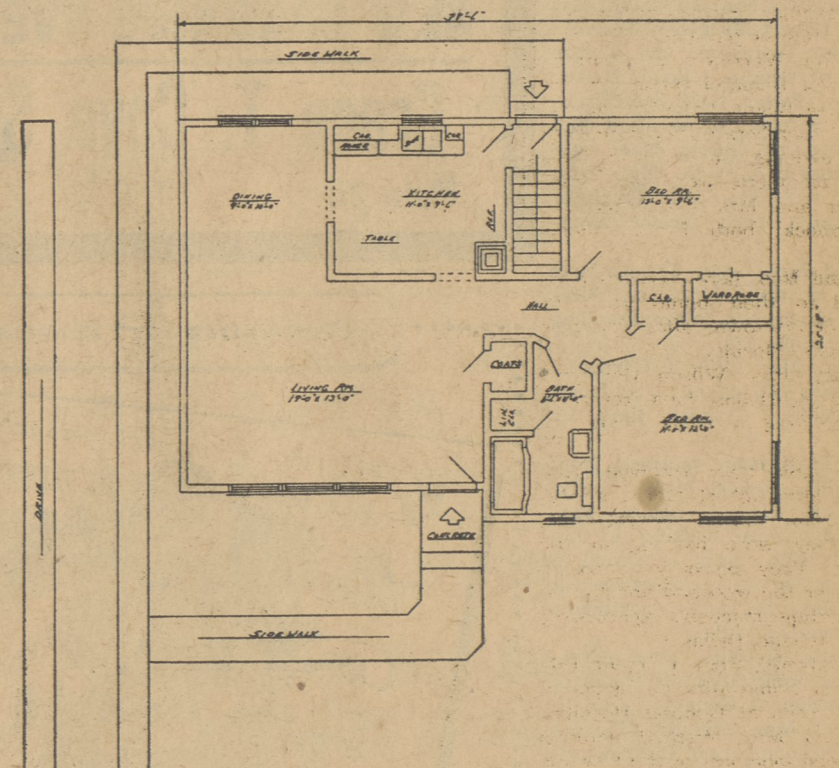

Start young! Instead of spending a big piece of your income for rent when you are young, put that monthly rent into mortgage payments and, before you know it, you'll have your own home to show instead of a bunch of worthless rent receipts.

If You Have A Steady Job You Can Buy This Home Right NOW!

Here for the first time in a good many years is a fine home, built of the best materials to last and last, planned for expansion as your family grows, and selling at a period when the real estate market is not inflated. **YOU REALLY GET YOUR MONEY'S WORTH!**

In this comfortable country home you'll find all the

modern conveniences you have come to expect in this modern age. You'll love living in a beautiful suburban area. Stop in and see us now. We will have this home built, on the lot of your choice, just 3 months after you receive mortgage approval. Call for details, no obligation.
