SAFETY VALVE

(Continued from Page Two)

high and on top of them are lakes. They look like big blue patches. The glaciers are what makes the water so blue. We saw bear and moose, many of them, browsing around.

Arriving in McCarthy you are flying directly facing the McCarthy glacier. Certainly awe inspiring.

The town of McCarthy is an abandoned copper mining town and truly what we call a ghost town. It is the site of the Kennecott Copper Mine. The people just walked out of their homes in 1938 and left practically all of their possessions. The only access to the town is by air. The railroad has been abandoned. I would like to spend a week looking around and visit the Copper mine. It was the richest mine up here. It is where so many died during the stampede trying to get rich. There were many dog sleds lost in the crevices. We met a lady who drove the supplies in to the miners by dog sled.

The salmon have started to run. The Indians have their fish wheels in the river. We hope to go for salmon Sunday. Copper Center is an ideal spot. When you decide to take a vacation try some Northern hospitality and come to Copper Center.

We have about 19 hours of daylight now. Altho' it is never really dark.

Must close or I will fill a page in The Post.

A GOOD CHAIRMAN RETIRES

I want to thank you and tell you how much I have appreciated receiving your paper for the past 2½ years while I served as publicity chairman of the Harveys Lake Women's Service club.

As you know Mrs. Harvey Kitchen is the new Publicity Chairman and will be sending in the Club News for the next two years. Thank you for your splendid cooperation.

Each week I said to my family, "Oh, I wish I could tell them how much I enjoyed a certain item. I especially enjoyed the account of the "Trip to Florida," the item about the "Peepers" which my daughter made me save, "Wellsboro" and just many more.

Again "thanks" for your kindness Mrs. Albert Armitage Harveys Lake.
