

Hillside Bulls Rank As Pedigree Sires

Hillside Farms has two registered Holstein-Friesian bulls which have been rated Preferred Pedigree Sires by The Holstein-Friesian Association of America. They are: Mallary Rag Apple Select; and Whirlhill Wozard of Oz.

This honor, based on achievements in both milk production and body conformation of parents on both sides, is granted through the Selective Registration Program designed as an additional means to breed improvement, and differs from all previously established because it is based on parental achievement rather than accomplishment of the animal itself.

The Preferred Pedigree rating is the highest honor awarded through Selective Registration system. An integral part of the registration system, the ratings for these bulls will be indicated on their certificate of registry and on all records of the association.

Waddya Read?

Our country has 7,500 public libraries and 1,450 book stores—far too few of each, say worried intellectual leaders. . . . But we do have more than 116,000 newsstand outlets which sell millions of paperback books and magazines.

Survey shows there are four times as many radios in use in U. S. as TV sets; that 13 1/4 million radios were made last year, 7 million TVs.

Doggie In The Window

The doggie in the window, looking wistfully at children passing by on Main Street, Dallas, has been a fixture at Bond's tailor shop ever since it opened September First. Mr. and Mrs. Joseph Bond have no children, so Snooky is a pampered pup. Right now, with summer sunshine pouring into the window and super-heating it, Snooky abandons her favorite station in the middle of the day, returning to it after things cool off.

Correction

In the Post last week it was erroneously stated that Mr. and Mrs. Michael Kozich had celebrated their fortieth wedding anniversary. Heaven forbid! It was their twenty-ninth.
