Timely reminders from the Pennsylvania State University College of Agriculture.

Wears Well—When choosing material for children's clothes, remember that a heavy material is not necessarily a durable one. Often lightweight materials wear just as well and are less tiring to the child.

Softens Wax—If you wax kitchen cabinets, don't dust or wipe with a cloth that has any furniture polish on it. The oil in the polish softens the wax and destroys the hard, smooth, dust-resistant finish. Doris L. Conklin, Penn State extension home management specialist, reports.

Connect Freezer—A home freezer should be connected to an individual electric circuit. There's less danger of interrupted current service this way.

Looks Wilted—A stale carrot will be soft and yield to the touch. Both the root and tops will look limp and wilted.

Select Books—It's easier for the young child to "read" his picture book when there is just one picture on a page.

Save Kitchen Time—You'll save time in washing dishes if you rinse or soak cooking and baking dishes as soon as they're emptied.

Proceeds from the spring rummage sale will be used toward a mimeograph machine.

Mrs. Charles Brooke announced that Rev. V. M. Mathan of South India will speak at the Parish Covered Dish supper, April 16th, and at the Men's Corporate Communion breakfast, April 17th.

Reservations for the bus trip to the United Nations, Wednesday, March 30th, must be made Tuesday, with Mrs. Brooke. A meeting of District No. 5 of the
