THINK BEFORE YOU VOTE — BUT PLEASE VOTE!

Competition Is The Spirit Of America

It is good for all of us whether it is in business or in politics. In business it brings us better products and lower prices.

In politics it brings us better public officials.

I am not claiming to be better qualified than anyone else for the office I seek.

I was in the retail business in Tunkhannock for over 15 years. I was chairman of the Citizens for Eisenhower Committee for Wyoming County in the last Presidential Election. I would like the opportunity to serve you as Register of Wills and Recorder of Deeds in a modern business-like manner.

If you think that I am the man for the job then please don't fail to go to the polls on Tuesday, May 17 and

Don't Be Taken For A Ride!

Don't let Sandy McCulloch—the big-talking, hand-picked Fine-Evans Republican Committeeman, and sometime Democratic vote trader — take you for a ride with his Fresh Air Taxi slate of candidates.

McCulloch takes no chances in his bid for power. He has picked five candidates for four positions on Dallas Borough Council and other candidates for every office in the Borough, including one who he hopes will defeat Russell Honeywell for Constable. Sandy wants to fatten on power. Maybe he doesn't like to have Honeywell warn him for speeding on streets where children play!

McCulloch and his Charlie McCarthy candidates aren't too careful with the truth either. There may be reasons why Sandy would like to see McVeigh and Hedden defeated BUT don't believe the reasons and the line he hands out!

Let's nail one of his lies now. Joe MacVeigh hasn't missed a dozen meetings in the sixteen years he has been on Council. Don't be misled by McCulloch's smooth tongue "Hedden is a good man, but he misses too many meetings." How many has he missed, Sandy?

And here's another lie to be nailed. Sandy says Birch Lane, the street through the Hedden development, was paid for by the Borough. Every cent of the cost was paid for by Raymon Hedden!

Neither did the borough construct the new road through Mrs. Sterling Machell's real estate development. Council did surface part of it, after Mrs. Machell had the base constructed. Council has done the same for every other new street in the Borough. Of course, McCulloch knows a lot about road construction. He rides on 'em — just as he would like to ride over the Borough with his hand-picked candidates!

You'll go some to find a better managed community than Dallas Borough — and all for free. You won't find it in Luzerne County where machine politicians control many municipalities!

But Sandy McCulloch, from his curbstome office, has done a lot of figuring. He wants to be postmaster, committeeman and boss. He'd like to fire all Borough employees including Russell Honeywell and Ralph Eipper!

Keep Borough Council Out Of Politics
