

A-1C Duane Wickard Is Surprised On Birthday

A-1C Duane Wickard, Sweet Valley, was surprised on his 22nd birthday, Friday night, by a party given by his wife and friends. Airman Wickard has been stationed at Benton AFB for 19 months. He is originally from Omaha, Nebraska.

A birthday cake, beautifully decorated by Johnny Steele, and sport-

ing 22 lighted candles, was the biggest surprise. Everyone had a good time. However, Duane says he feels no older than before, which is a wonder considering the fact that he is an expectant daddy.

Present were Betty Ann, Lee and Butchy Reese, Mrs. Mary Wyckoff, Alice Ide, Andy Barto, Johnny Steele, Mr. and Mrs. Gene Ainsworth, Mr. and Mrs. Basil Steele, the hostess Joy Wickard, and the guest of honor.

Dallas Franklin Registration

No School Census For This Year

Since the change in the School Census Law, a complete census of school children will be taken every third year. Since the census in Dallas and Franklin Townships was taken last year there will be no census this summer. Families who have moved into the district since September 1954, and who have children to enroll for the 1955-56 term, are asked to register them either in person or by calling the school office. If this is impossible, information sent by mail will be helpful.

Pupils entering all except first grade, who were enrolled in another school, are asked to bring report cards and any other record.

Parents of children entering the first grade this year, whether they were included in the census last year or not, are urged to register them, bringing birth certificate and vaccination certificate.

Register during July if possible. The office is open every school day from 9 a. m. to 3 p. m., Dallas 4-4016 or Dallas 4-4611.

Those knowing families who have moved in since the close of school or of families who have moved away are asked to give this information.

"There are some people who not only keep you from being lonely, but make you wish you were."—L. S. McCandless.

Out Of State Kids Save Up For Trip To Library Auction

A Library Auction which offers such attractions that out of state youngsters save up their allowances in order to finance a trip to Dallas, is a pretty good advertisement for the Back Mountain.

Two eight-year olds from Herndon, Virginia, financed their bus trip to Dallas a week in advance, so as not to miss a single bit of excitement. The third, twelve years old, made a grand entrance by four-motored plane, landing at Avoca two days before the auction, practically penniless, but sitting on top of the world.

All three boys shot their wad at the auction, and are even now planning to start saving for next year's binge.

It was Todd Harding, a twin, who drew the winning number out of the hat for Robert M. Scott's lucky win of the West-

inghouse Color Television; Howie, the second twin, who industriously gathered empty pop-bottles, and Chuck who haunted the book-stall.

Californian On Visit

Mrs. Lydia Blaise, Los Angeles, Calif., sister of Emory and the late Gordon Hadsell, spent last week with Mrs. Gordon Hadsell and attended the Library Auction. A retired army nurse, Mrs. Blaise read about the Auction last year in Friends magazine and determined then that she would make her trip east at a time when she could attend it. She is now visiting relatives in Endicott, N. Y., but will return here before going west.

Contracts Are Awarded

Dale Parry has been awarded the contract to furnish the oil, and Airport Sand & Gravel Co., the contract for sand and gravel for Borough Streets. Several will be resurfaced but no new streets are planned.

When the going is rough

YOU CAN DEPEND ON A MASSEY-HARRIS ENGINE DRIVEN Clipper 50

On hilly land or in extra heavy crop conditions, the engine powered Clipper does a more efficient job of harvesting your crop. Its 21-horsepower, 4-cylinder air-cooled engine maintains constant threshing speed . . . lets you move right along regardless of contour or crop conditions. In cold weather operation it requires no anti-freeze.

And you get the efficiency of Massey-Harris design, time-proven in more than 110 different crops, better table balance, 6-inch knife stroke, hand adjustable reel and rasp-bar cylinder.

Six-winged beaters give better straw control with no crowding, jamming or bunching. New chain drives assure positive power delivery. 2-piece concave adjusts to the cylinder—can be quickly removed for cleaning and changing.

Stop in soon and let us show you how your harvest can be easier and more productive with a Massey-Harris Clipper 50—engine powered for heavy work, rough going.
