Guernsey Herd Is Classified

Tennessee Man Does Work At Lake Louise

Raymond Goeringer, Lake Louise Farm, has recently had his Guernsey herd classified for type by L. O. Colebank, Knoxville, Tenn., official classifier for the American Guernsey Cattle Club.

A complete analysis of the herd for type was prepared for Goeringer. This shows that of his 43 cows classified, six were rated Excellent, 23 Very Good, 13 Desirable and one Acceptable.

Results of this work tell the breeder the strong and weak points in the conformation of his herd. By selecting the better cows and breeding them to sires that transmit good conformation, herd type can be improved.

Nine daughters of Lake Louise Coronation King were classified. One rated Excellent, six Very Good and two Desirable. His daughter that classified Excellent included Lake Louise King's Lindy.

Five daughters of Pine Manor King's Messenger were classified. One rated Very Good, three Desir-

able and one Acceptable.

Four daughters of Langwater Antracite were classified. They all rated Very Good.

The report of this official classification has been sent to the national office of the American Guernsey Cattle Club in Peterborough, N. H., for approval and publication.

Church Nights At Lumber Co.

Sales Percentage Goes To Churches

Back Mountain Lumber Company is sponsoring four Church Nights next week, Monday, Tuesday, Wednesday and Thursday, when 10% of all purchases will be donated to the church of the customer's choice.

Last year's Church Nights were so successful that the plan, in a modified form, is being put into action again.

Last year customers who wanted their churches to benefit from the percentage, had to come on a specific night. This year it makes no difference which of the four nights the customer selects, the percentage will go to the right place. The plan will be in operation in both stores, the main store in Shavertown and Dallas Hardware in Dallas.

"Car For Life" Is Offered In Dodge Contest

Richardson Says First Award Will Be Made This Week

Want a new car every year of your life—free, gratis, for nothing? Some lucky motorist in this community may win just such an award in the highway safety quiz contest sponsored by Dodge Division, Chrysler Corporation. Applications will be received up to November 28, according to Jack Richardson, local Dodge dealer.

"There's no catch to this contest," said Richardson. "It is open to everyone 21 or older, who possesses a current driver's license. It's a fabulous offer — a new car every year as long as you live."

Designed to make America safety conscious, the contest will run for four weeks. Its purpose is to promote public safety on the highways, in support of the National Safety Council's accident prevention program.

Jack said that winners will be named on the basis of their knowledge of driving and safety principles. Registrations, of three to ten word safety slogans, may be made at any Dodge dealer from October 3 to November 28. Slogans will be forwarded to the impartial contest board for selection.

Beginning this Saturday, November 12, and continuing for four weeks, three different applicants, selected on basis of their safety slogans, will be flown to Los Angeles each week, all expenses paid, and will appear on the Lawrence Welk TV show (ABC-TV Saturdays, 8 to 9 p.m. EST).

Bert Parks, popular master of ceremonies of Dodge's "Break the Bank" program, will act as quizmaster. Each weekly winner will be awarded a new car every year as long as he lives. The two other contestants each week will receive a new 1956 Dodge hardtop.

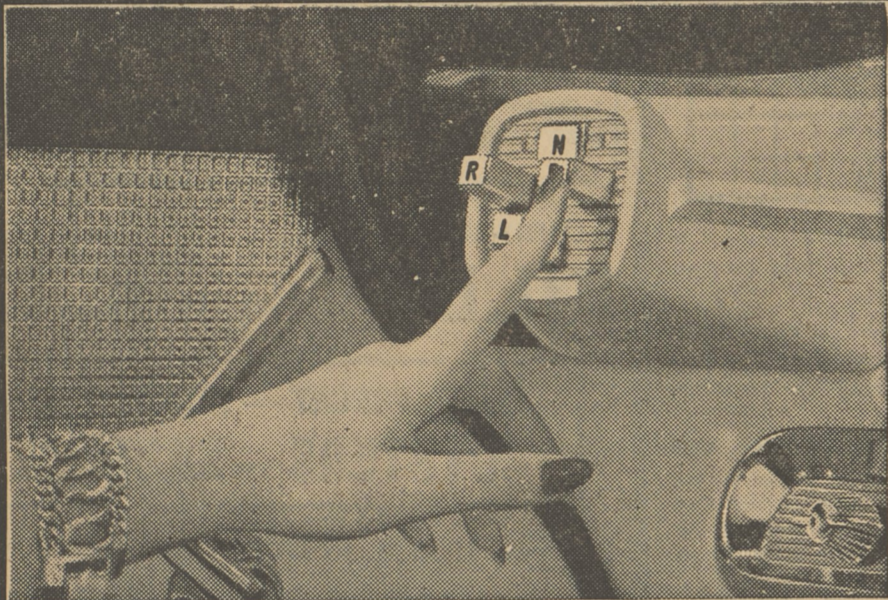

The contestants who appear on the Welk shows will be asked questions prepared by the National Safety Council. Mr. Richardson explained. A "push-button" tabulator will record the contestant's answers which will be visible only to the television audience.

"In company with every responsible citizen and officials of the National Safety Council," Mr. Richardson said, "we of the automotive industry are vitally concerned about highway accidents. We believe that through this contest we will concentrate public attention on President Eisenhower's recently announced safety program, and will help make all America really safety conscious."
