New Basic Fare On Buses And Trolley Coaches Effective Sunday

Beginning Sunday, August 5, a basic fare of twenty cents will be effective on all our buses and trolley coaches. This new basic fare will entitle riders to travel through two zones as under the present tariff system. The present zone system will remain unchanged and there will be no increase in the five cent fare for each additional zone after the first two zones.

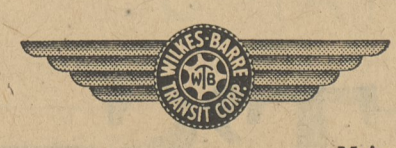

All transfer privileges, under the new basic fare, will remain as they are.

Commuters' tickets, in strips of ten, for use within a two calendar week period, may be purchased for \$1.80, thus making the basic fare eighteen cents—or a savings of two cents on each ticket—for regular riders in this category.

Basic fare tickets at 20c each and additional zone tickets at 5c each may be purchased in units of five, good for an unlimited period.

Riders whose one-trip fare exceeds thirty-five cents will not be subject to the Federal transportation tax of ten per cent if they purchase Special Commutation Tickets in units of ten at the regular rate. These Special Commutation Tickets are good for use at any time within six months from date of purchase. Regular riders whose one-trip fare exceeds thirty-five cents will be afforded additional savings by purchasing tax-exempt, Special Commutation tickets in units of ten for use within a two-calendar week period, at a reduction of two cents per single strip in addition to eliminating the payment of the Federal transportation tax.

All tickets, basic fare, zone fare and Special Commutation fare tickets are now on sale at our regularly established ticket offices.
