Oak Hill

Hello again, friends. This week we can begin our column with Good News for the residents of Oak Hill. We have been informed by Elwood Whitesell that Oak Hill will have street signs in the near future.

This was a verbal agreement between Howard and Elwood Whitesell and the three supervisors of Lehman Township, but we know they will stand behind their word and produce the much-needed signs.

The signs, for which the Whitesells will furnish all the material, will be painted and erected at each intersection by Lehman Township.

This warm, dry weather, grand as it is, brings a tear to our eye here in the lower circle of Oak Hill as we see the cars go by and all the dust come rolling into our homes from our lovely paved roads.

Why, oh why, won't someone please take pity on us and pave this mess? If we think the dust is bad now, wait until Spring arrives and our road is gooey and gummy and SLOPPY!

Our poor children will sit and look out the window but not be able to set a foot out for fear of drowning in the mud. Where can they go when the lawns are soft and their only alternative is the road?

Country living is so delightful when the necessary cooperation from various factors permits us to have the basic fundamentals, such as a paved road on which to walk. Not only that, but our automobiles are fast becoming buckets of bolts from all the jolting and jouncing. Not to mention the holes in the tires.

We don't ask for much. We're completely satisfied with the advantages Oak Hill offers and would not change one iota. But we're the only ones without a paved road and we're sending a great big unanimous plea to whomever can help us for at least a good attempt before next week we can contact the proper authority and have something definite to report.

Many thanks to my friends who sent in news this past week. Please keep it coming.
