## Hanson Will Feature Nagy October 12th

STEVE NAGY

Steve Nagy, 43-year-old former National Individual Match Game Champion, will appear at Crown Imperial Bowling Lanes Saturday, October 12, and demonstrate the explosive power that has won him virtually every title in the book.

An extremely explosive competitor when the chips are down, Nagy consistently draws the largest galleries because he is capable of going all the way at any time.

When television discovered match bowling, Nagy pulled up its audience rating with a 300 game. It was not unnatural that the largest audience ever to witness a perfect game should see Nagy turn the trick.

The thrill of watching a home-run slugger break up a baseball game in the last of the ninth inning, is not unlike witnessing Nagy come from behind in the last stages of a tournament, piling strike upon

## Jackson Institution Water Tower Shapes Up Under Welders' Torches

Welding of the 250,000 gallon water tank at the Jackson Institution is under way, with workmen clinging like spiders in a web of steel, and electric sparks twinkling high above the structural steel framing of the rising buildings.

The 600,000 reservoir tank, solid concrete and sunk deep in the ground, has been completed. Filled with water from two deep wells drilled by Dean Shaver, this reservoir will supply the high tank, providing gravity flow for the institution. Two heavy duty pumps have not yet been connected.

Cell units, the first of the 2,000 cells which will be needed for the prison blocks, are being prefabricated of reinforced concrete and assembled.

Brick work is progressing speedily on the warehouse, with thirty bricklayers on the job, and the building almost ready for its glass.

All buildings will be brick with some stone trim, and modernistic in design, adhering to the two-story pattern.

Anton Humink, Harveys Lake, says over a million tons of rock were excavated for foundations, and that this phase is about completed. Not a day has been lost. As for cloudbursts, such as visited the area Sunday night, it would be impossible for rain to wash out a road bedded on solid rock foundation such as the one he superintended. All it did was lay the dust and work

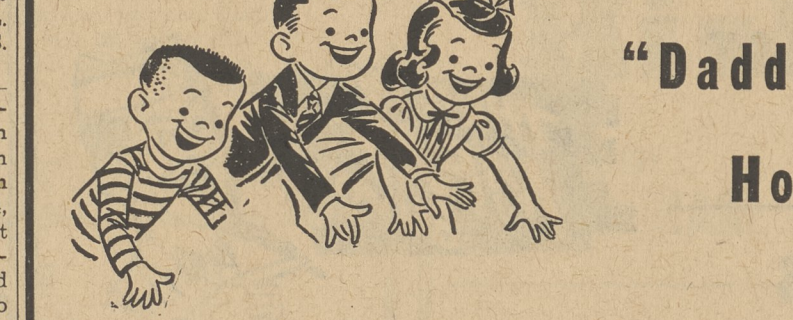

strike to snatch victory from defeat. The most dramatic example of this came in the 1954-55 world match game championships. Trailing by an almost unbridgeable gap the last day Nagy needed to win all four games from the leader, Ed Lubanski, to claim the title. He did just that with a 236 average for the set.

"Mr. Explosion," a member of the famed Brunswick Advisory Staff of stars, is considered a bowler's bowler whom other stars pause to watch in action. In a game which has captured the imagination of men, women and children, there is probably no more colorful figure than the genial, powerful pin toppler from Detroit.
