## "IT IS NOT WISDOM BUT IGNORANCE THAT TEACHES MEN PRESUMPTION"

(Author's Name Below)

Many firms previously unconnected with the medical world seek an opportunity to make quick money. They hire people to go from door-to-door to sell unknown brands of vitamins.

Unfortunately, these door-to-door salesmen have no knowledge except what they memorize from their canned sales pitches. Why gamble? We pharmacists have the training to properly answer your vitamin questions.

Before training any vitamins from these door-to-door opportunists, check their prices for unknown makes with what we charge for products of the reliable firms physicians endorse. Despite their glib promises, our prices are usually much less.
