

Legion Opposed To Conference

Wants No High Level Meeting With Soviets

Daddow-Isaacs Post, American Legion, went on record Friday night as being wholeheartedly against any high level conference between leaders of the United States and the Soviet Union at the present time.

Commander Frank G. Mathers III said the decision of the Legion was brought about at its meeting by the fact that the Soviet Union has continually violated its past treaties and agreements.

"Since the close of World War II," he said, "sixty-nine of these solemn pledges have been broken. This alone would tend to make Americans believe that Soviet honesty and virtue are to be doubted."

Thomas Reese, vice chairman of the Americanism committee, also brought out a number of salient reasons for the Legion's action.

"The record at the United Nations during 1955 shows that these same Soviet leaders used forty percent of the speaking time as compared with only four percent for our statesmen, proving them to be great talkers and statesmen but little else at the conference table."

One of the first doctrines of Communism, it was brought out, is that the end justifies the means.

"How can we," said Mathers, "as freedom loving Americans sit down and clasp the bloody hands of Khrushchev and still have a clear, proud conscience when we think of the heroic dead in Hungary and Korea?"

"Seemingly we should ally ourselves more closely with the freedom fighters than with the sickle wielding slave masters."

He met his wife, the former Thelma Harris, when she moved from Kingston to New York when she was fifteen years old. Mrs. Rood has plenty of relatives in the area.

The two older daughters, Pat and Peg, go to the Township school, and Pam will start next year. Bill, a veteran of World War II, saw service with General Patton in Europe.
