**"TO KNOW HOW TO GROW OLD IS THE MASTERWORK OF WISDOM"**

Not so long ago there were fewer old folks because the average person who reached fifty was considered lucky. Now with an average life expectancy of about 70 years, there are many more people who are old in years but young in health.

There are two wise rules that will make your added years healthier. Always visit your physician at the first sign of any illness, and regularly take one of the geriatric vitamins that will supply the extra energy needed. For just a few cents per day you can get from us vitamins made by the dependable pharmaceutical firms who discovered and perfected them.
