# THE PURPOSE OF A PRIMARY ELECTION

The purpose of a Primary Election is the nomination of party candidates to appear on the slate for the General Election. Since Pennsylvania has a closed Primary, the voter may choose candi-dates only within the party in which he is registered. Thus, where the candidate is unopposed in the Primary Election, the League has omitted biographical material and all answers to questionnaires, except one question which the League felt was urgent. For the General Election in November, the candidates nominated in this Primary will be covered in full in the Voters Guide to be issued prior to that time.
