### Wyoming Valley D.A.R. Protests Action

A committee headed by Mrs. Mae Townend, Pioneer Avenue, was appointed by Mrs. R. B. Wall, regent of Wyoming Valley D.A.R. to protest to the National organization on action taken at the recent convention, as discreditable to the membership, and not in accordance with its

Mrs. James W. Jones. Kingston, states the case: When the members of the Wyoming Valley Chapter

of the Daughters of the American Revolution, by a majority vote, sent a protest to the National Society of the Daughters of the American Revolution concerning the resolution against the United Nations as passed at the 67th Congress of the DAR, it was with a sincere desire to carry out the 3rd objective of the DAR.

These objectives are still the touchstones of the DAR, on every level from National Headquarters to the smallest chapter, the third objective reads, "To cherish, maintain and extend the institutions of American freedom, to foster true patriotism and love of country, and to aid in securing

for mankind all the blessings of liberty.' Members feel, that although there may be many errors or failures in the United Nations, until such time as another proposal for world peace is offered, no organization, dedicated to freedom and liberty should "Resolve, That the National Society, Daughters of the American Revolution urgently request the Congress of the United States of America to withdraw from the United Nations, and to demand the withdrawal of the United Nations from

### Introducing The Poisoner

the soil of the United States of America.'

It takes a very special breed of person to poison a dog or a cat, someone who works under cover, leaving no

Someone who nurses his hatred of animals in secrecy. Someone who does not have the bravery to confront the dog's owner with complaints about wrecked flower beds or night barking.

Someone who prefers not to register a complaint with the constituted authorities who would do his dirty work for him by talking to the owner.

Someone who is so mentally twisted that he enjoys

Someone who is willing, for the sake of his secret satisfaction, TO EXPOSE NEIGHBORHOOD CHILDREN TO THE DANGER OF STRYCHNINE POISONING.

### **GET THEM READY!**

- A. That costume jewelry that makes you look so frowsy, that set of breakfast ware you just got tired of, the embroidered luncheon set you never did like. Any good, whole item you have stuck in a drawer-for the Odds and End table. Some one else will just love it!
- B. That hanging lamp that you've dusted and moved-Grandma's old cradle that you've dusted and moved-her platform rockerthat you've dusted and moved—those oval frames—that you've dusted and moved! The Antiques Committee will be happy to have them!
- C. Those geraniums you slipped the first of the year, the begonias recently potted, boxes of mint, garlic, sage. Mums, and annuals. The Plants and Produce Stand needs them.
- D. Those breakfast room chairs you no longer need, the extra sofa your mother-in-law brought when she came to live with you. Her kitchen ware, dishes, side tables-any whole, useful piece of furniture or knick knack! Just call the Commonwealth Telephone Company, they'll pick them up and deliver them to Risley's barn. Or better still, if they're small - bring them in. You'll enjoy looking around the barn!

#### SAFETY VALVE IT PAYS TO ADVERTISE

I must drop you a little note in The day that I visited the Dallas Post to discuss an ad to sell the tractor you said "You should have come here first before you put your ad in the other paper, we always get results with our ads." We both had good laugh over it.

After the ad appeared in The Post didn't think people would spend a toll call-they will if they want something bad enough). To make a long story short, the tractor was sold Friday morning to Russell Transue, Beaumont.

Even up to Sunday afternoon call came in about the tractor. So with reluctance I must admit this time that it pays to run an ad in the Dallas Post, even if you live 28 miles one way from Dallas.

Sincerely, Pastor Donald G. Nulton, Mehoopany, R. D. 2

### Rambling Around THE OLDTIMER

Can anyone furnish a list of Dal-Township wanted a separated school las men who served in the Civi district, but outlying districts fought | War? For Memorial Day it was de it. The result was an organization sired to locate such a list, either of of a High School Association of all soldiers or a list of members of Dallas with a charter granted on Capt. John J. Whitney Post, G.A.R., but no such list could be located.

No one seems to know what became of the Post records. They may chell, 40 shares; James Garrahan, be buried in some local attic. If 10 shares; Ira D. Shaver, 10 shares; they are it would be well to turn them over to a historical society. This column would be glad to pub-

## From

# Pillar To Post . . .

A green thumb is one of those things that you have, or you haven't. Some folks can grow flowers, and some can't. Or could it be that a green thumb is a compound of hard work with a hoe, a knowledge of what is going on underneath the ground,

and a sharp eye peeled for bugs?

But it does seem, even for a person with a pink thumb instead of a green one, that anybody could grow a geranium.

There it was, a lovely geranium with white outlining around each leaf, and three beautiful heads of pink blossoms with the promise of more to come, nested cunningly in among a wealth of small leaves.

"This," I said to myself happily, "is IT." Geraniums are the answer for anybody who annually notes flowers shrivelling under her gaze. Geraniums are fool proof. They used to bloom like crazy at the Pump House on that sunny windowsill. Anybody can grow a geranium. Sitting in its little green saucer on the window ledge, the geran-

ium looked about it, shuddered, and hauled in its horns. The blooms faded and dropped off. But this, of course, was only natural, as the geranium had been bought at the peak of perfection. Just wait a couple of days, and one of those tiny heads of buds will start to rise from its crown of leaves, and judging from the num-

ber of buds, the blooms can be expected to last all summer. Oh, don't be silly. The heads of buds stayed right where they were, turning brown in three days time. But the leaves are still pretty, their white borders highly dec-

And as for the dogwood . . . everybody else's dogwood yielded clouds of bloom this spring. It was a good season for dogwood, which is probably why we got nine pink blossoms, slightly blasted, on a

tree that has been taking up garden space for eight years. No alibi on the iris. That layer of topsoil, spread on the flower beds to deepen them, was far too heavy for the iris roots. Even a person with a pink thumb knows they lie near the surface and won't stand burying. The crocus loved it, likewise the tulips and peonies, but the iris didn't bother to come up.

And of course the phlox divaricata bit the dust last year when a weeding spree came on unexpectedly. What's that straggling stuff? Well, it's probably a weed. Haul it out by the roots. This spring, one small plant looked up reproachfully, unfolding its blue petals reluctantly, with a hesitant look in my direction. "Don't you dast to touch it practically spat in my direction. Gardening, I am sure, should be reserved for the experts, people

who can tell at a glance the difference between a weed and a flower There's only one rule I know . . . if it's flourishing, it's a weed. If it is struggling alo t is a flower.

VE

R. D. 2, Pa., June 9, 1959.

Dear Mr. Sley: This letter is a protest against the ad in your paper of June 6 for the "Moonlight Drive-In." I have been a subscriber to your paper for several years, and this is the first time I have ever been ashamed to admit it! You have always before seemed to stand for God and de cency, but it is hard to reconcile

going into homes where there are teenagers and children. I sincerely hope you receive many letters of protest, and heed them.

Yours for a clean paper, (Mrs. L. W. Karschner) Edna M. Karschner. • Unfortunately I did not see the advertisement until after it had appeared in print. My reaction was the same as yours. At best it was in poor taste and

at the worst offensive. We try to keep The Post from being offensive. The whole question of what should or should not be published is a matter of grave pub-

lic concern. I admire you for having the courage to speak up, but who is to be the censor? Current issues of The Readers Digest, Ladies Home Journal and McCalls as well as most of their issues contain articles unfit for immature readers, yet the Digest, especially makes a play to young readers and holds a respected place in all school

swered alone by this Editor. INEXPERIENCE ALSO KILLS

libraries. You have raised a

question that cannot be an-

Dear Editor: I must say something about it. If ever there were three young-

to handle a car, here they were. of our lives! The day was perfect, the road wide, yet one of them had to die.

in driving is also essential. Inex-

done in a similar driving situation.

perience can kill.

I explain that at 40 miles an hour a driver should have his car under control and had he been going at that rate of speed he could have stopped, or it seems to me, have slowed down enough to stay behind the station wagon that pulled out in front. Not knowing the details. however, it is hard to say what one would do.

He defends the teenage driver

and asks me what I would have

The questions he asked me was: What would you do if you were going ninety (get this, ninety miles an hour) and came upon a curve? Of course, my answer was that I wouldn't be going ninety miles per hour and that curves are pretty well marked. This didn't satisfy him, as he had read something else

in Popular Mechanics. Well, I tried to tell him that his ideas might apply to drag races and then we began to discuss drag races

in terms of speed. It seems we must form a club and have these kids get the speed out of their systems in a place where at least they can't harm anyone but themselves. To me it seems an awful waste-but then I am not six-

The only thing I can think to do is to keep trying to have a Bill passed to raise the age at which a youngster can get a driver's license. Sixteen is too young to operate high powered cars on today's highways. Included in the law might be a

provision for a severe penalty for

any parent who permits his child to drive on a learner's permit without the presence of a parent. If children of sixteen must be allowed to drive, let it be in the law that a parent or guardian must accompany him until he has had at least one year's driving experience. I believe also that all young drivers should have driver training before

habits to pass on to their children. Just what can we do? I am sick The death of a fine boy on the all over when I read of these need-Lake Highway has me so upset that less deaths. As I told Jackie, we can replace a car but we can never replace a human life and that our sters who could have been trusted grief would be with us for the rest

they are granted licenses since par-

ents have too many bad driving

I still think it is lack of experience, rather than speed, that causes My own son will be sixteen in many teenage accidents although January. We have only a few speed in the hands of youngsters months to drill into him that we and adults can be fatal if not comhave confidence in his ability to bined with common sense.

Operate a car, but that experience;
