HALL'S PHARMACY Monthly News
A message from Edward Hall, "Your Pharmacist"
THE PRACTICE OF PHARMACY IS A PROFESSION ALL NEW GRADUATES SHOULD SERIOUSLY CONSIDER.
There are many ways to earn a living, but few that are so interesting and helpful to the public welfare.
AFTER HIGH SCHOOL YOU MUST GO TO A COLLEGE OF PHARMACY FOR AT LEAST FOUR YEARS
You will study Chemistry, Biology, Physiology, Physics, Mathematics, Anatomy, Latin, Public Health, Bacteriology, Clinical Microscopy and Pharmacology. You will learn all about the properties and dosage of herbs, chemicals and medicines. You will be taught how to compound prescriptions carefully, accurately and skillfully.
AFTER YOU GRADUATE YOU MUST TAKE A STATE EXAMINATION TO PROVE YOUR KNOWLEDGE.
Then you will become a Licensed Registered Pharmacist. All this preparatory training is necessary because, when you compound prescriptions and dispense medicines, people entrust their health and even their life to your professional care.
YOU WILL BE AN IMPORTANT MEMBER OF THE HEALTH TEAM.
Each night you will have the satisfying feeling of knowing that you are helping people live a healthier life.
WE LIKE PHARMACY AND WILL BE GLAD TO TELL YOU MORE ABOUT IT.
