

Carverton Methodist Charge Plans School Of Missions

A school of missions for Carverton Methodist Charge will begin this Sunday evening at the Carverton Methodist Church. Meetings, held on three consecutive Sunday evenings, will begin at 8 and close at 9:30.

The topic this Sunday evening, "Our Mission to the Community," will be concerned with the community needs and responsibilities met through the Wyoming Valley Council of Churches. Dr. Roy Beane of the Plains Methodist Church, vice-president of the Council of Churches, will be the resource leader.

The second session will be held at Orange January 18th. The topic, "Our Mission to the Nation," will deal with work in Puerto Rico and will be led by Rev. Robert Webster of Dorranconet Methodist Church

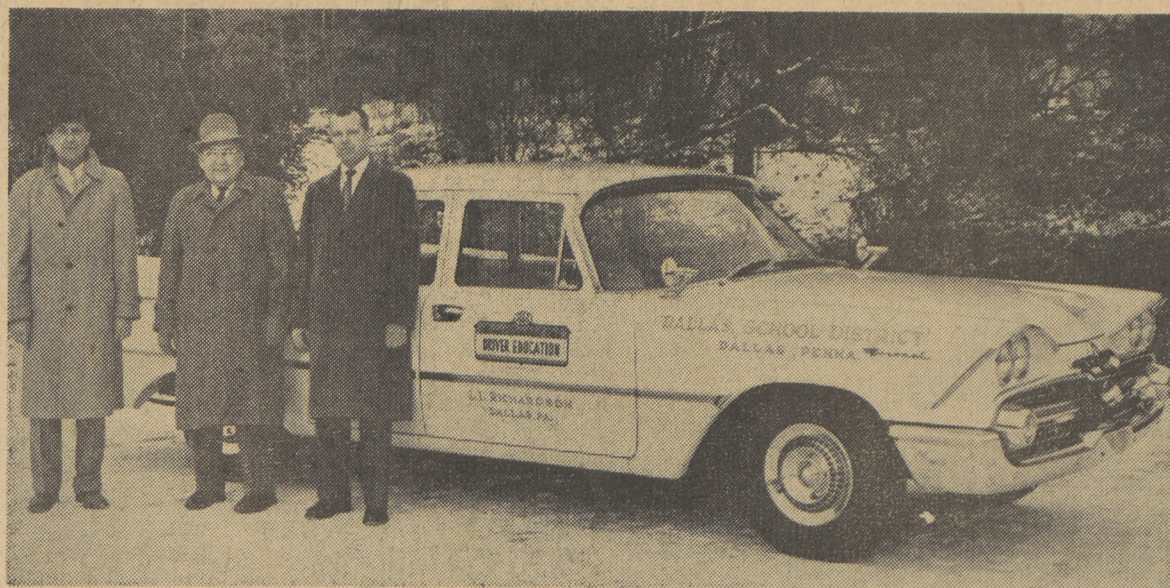

who has visited Puerto Rico and surveyed the missionary work there.

The final session will be held at Mt. Zion on January 25. "Our Mission to the World" will deal with work in India where churches of the Carverton Charge are helping to support a missionary. The leader will be Robert Kaufmann of India who is in our country for a year of study at Union Theological Seminary in New York.

Programs are planned by the commissions on missions of the three churches under direction of their chairmen, Mrs. William Alling of Mt. Zion, Miss Marian Young of Carverton, and William Perry of Orange. There will be special music and refreshments each evening.

Pennsylvania ranks twenty-third in per capita expenditures for education.

Motor Club Lists Income Tax Deductions For Area Motorists

Hundreds of Back Mountain motorists might reduce their federal income taxes by taking full advantage of allowable deductions. C. W. Bigelow, secretary-manager of the Wyoming Valley Motor Club, said this week.

Most Back Mountain car owners who use their cars for business are fully aware of the deductions allowable for auto expense, but Mr. Bigelow said that many who use their cars only for personal transportation overlook substantial sums that can be listed as deductions on tax forms. Any motorist who chooses to list deductions on a Form 1040 may include the following automobile expenses:

1) State and local gasoline taxes—in the case of a motorist who drives 10,000 miles per year (about average), this would amount to about \$40. (Assuming the car averaged 15 miles per gallon and the state tax is six cents per gallon.)

2) Losses from accidents, theft, fire and storm not compensated for by insurance. For example, if a motorist damages his car in a collision and repair cost amounts to \$150, only \$50 of which is covered by insurance, the initial \$100, which is paid out of the motorist's own pocket, may be deducted from income for tax purposes.

3) All state and county license tag and registration fees.

4) State and local taxes paid on automobiles purchased during 1958.

5) All interest charges paid on automobile loans during 1958. Although Federal automobile taxes cannot be deducted, the motor club official pointed out, the total of taxes and other deductible items may easily add up to \$300, or more.

What Is The Largest "Woman's Club" In Pennsylvania?

2,432,000 Women Who Save Trading Stamps Are The Largest "Woman's Club" In Pennsylvania.

Every day over 2,432,000 Pennsylvania women make it a point to shop where they get trading stamps. This large group of smart, thrifty Pennsylvania shoppers, with their common interest in trading stamps, can be thought of as a huge "woman's club" with membership throughout the state.

Of course this "club woman" gets wonderful things for her home and family through such favorites as S&H Green Stamps. Through her thrift and diligence she provides "extras" for her family. And although she may seldom think about it, her active saving is enormously good for business in our state.

Last year, for example, trading stamp companies purchased \$25,132,000 worth of products from Pennsylvania manufacturers. Making these things provided jobs for 2,267 Pennsylvania people. S&H Redemption Stores, paying local rent and taxes, employ many more.

In the light of these facts it would seem that not only Pennsylvania women, but everybody in the state can be thankful that the trading stamp is a part of our way of life.

This message is published as public information by THE SPERRY AND HUTCHINSON COMPANY, originator 63 years ago of S&H Green Stamps.
