### Seniors Are Eligible To Compete For General Motors Scholarship

Senior students at Westmoreland high school are eligible to compete for more than 100 four-year college scholarships offered by General Motors under its National Scholarship Plan.

The competition is open to high school seniors who are United States citizens and who plan to take the College Entrance Board examination for admission to the college of their choice, or who arrange to take the examination in order to compete for a GM award. There is at least one GM award in each state and more than 50 winners chosen at large. Seniors awarded scholarships under GM's National Scholarship Plan may attend any college or university of their choice and pursue any course of study.

More than 400 students are now attending 113 colleges and universities under the Plan, initiated in 1955. Their career objectives include engineering, medicine, law, the sciences, journalism, teaching, music, religion and other worthwhile fields.

Selection of award winners in the GM National Plan is made by a group of leading educators representing various parts of the country. Full details of the competition, including registration dates for examination, are available at the school.

General Motors offers other scholarship opportunities. Under its College Plan 804 four-year college scholarships are awarded annually by 181 colleges and universities located in 50 states and the District of Columbia. A list of the participating colleges may be obtained from the guidance counselor's office at Westmoreland. Selection of award winners under the College Plan is made by the respective colleges and universities. Students wishing to be considered under this plan should apply directly to the college of their choice.

Awards under both plans range from \$200 to \$2,000 per year depending on the student's needs.
