Current classes at Back Mountain Home-Makers Holiday will end December 15, and another session will start in mid-January, according to Mrs. Henry Ward, YWCA, who spoke for Mrs. George Jacobs, chairman of the local program, under several weeks because of Grand Jury duty in Scranton.

Sewing will include tailoring, the third step in learning to turn out a professional job. At present, women are studying advanced sewing procedure, after completing basic sewing during the first term.

Hat-making has been such an attraction, that the YWCA hopes to offer it again. Also on the agenda will be paper lampshade making, taught by Mrs. Robert Sherwood. Bridge lessons will continue Tuesday afternoons, slimmastics, chair-caning and knitting in the mornings.

Art classes, popular with women of the community, will be given again.

Two new classes, party cooking and interior decorating, will be added. Information on these will be available later.

In the present classes, which started the Tuesday after election day, ninety women are registered, with chair caning and knitting drawing the smallest groups. Bridge draws four tables.

The early coffee hour, reports Mrs. Ward, is very popular, women meeting on an informal basis before start of classes. Women who have small children in the nursery report that playing with other children is a broadening experience, and that both children and mothers benefit.

But no fiction is as true as the present fact that five or ten dollars worth of antibiotic capsules can now, almost overnight, cure a pneumonia. The truth is almost unbelievable. Vitamins and Hormones are fabled "Elixir of Life." They help add years to your living. The greatest miracle of all is that despite the tremendous research expense needed to discover and perfect new medicines, more than half the prescriptions we compound still cost less than \$3, which is about the average charge for all prescriptions.
