College Misericordia Plans Reading Conference April 1, 2

Dr. Ronald Dewitt Durrell, Director of the Educational Clinic at Boston University, will be the major speaker at College Misericordia's Reading Conference on April 1 and 2. Misericordia will conduct this conference at its Reading Center on the College campus for all teachers of both public and parochial school systems. The problem which will be considered by the speakers and teachers at the conference is The Teacher's Role in Reading.

In American education Dr. Durrell is an authority on reading. His published writings relate to his special interest in research and instruction in reading. His college textbooks are Improvement of Basic Reading Abilities (1940) and Improving Reading Instruction (1916). School textbooks, which faculty associates as co-authors, include: Building Word Power, Steps to Reading, and Basic Reading Ability Series. Standard tests which he has designed are Analysis of Reading Difficulty and Reading Capacity and Achievement Tests. As editor and author he is an active contributor to many research publications in reading and language arts.

Dr. Durrell has taught at Boston University since 1930, serving as Dean of the School of Education from 1942-1952. He has been Summer Visiting Professor at Columbia University, the University of California, and the University of Colorado. In 1945 he was Chief of the Operation Analysis Division of the Third Air Force. He has lectured frequently in colleges and universities throughout the country and is an active member of many professional organizations.

Sectional speakers of Misericordia's Reading Conference will be Dr. James Fitzgerald, Department of Education and Psychology at Scranton University; Dr. Dorothy Snyder, Department of Psychology and Director of the Reading Clinic at Indiana State College; Sister Mary

Here they are, the quadruplet kids born to an astonished Nubian Goat Mamma at Lawrence Kintzer's place on the Demunds Road. Four weeks old, they are still confined to the Kintzer kitchen, where they go leaping about as if on pogo sticks. Come spring, they'll start living outdoors, "like a Billy-goat should."

Lauren, six years old, feeds the babies from a nursing bottle, but

at this age, they are already beginning to switch to a more solid food. What's in the bottle? What else but goat milk?

Twins are fairly common among goats; triplets on rare occasions; but quadruplets are practically unheard of, on a par with quintuplets in the human race.
